Dear Sir,

**JOINT REGIONAL REQUEST TO THE CLIMATE TECHNOLOGY CENTRE NETWORK (CTCN) TO SUPPORT ACCELERATED TECHNOLOGY TRANSFER IN GREEN COOLING TECHNOLOGIES IN AFRICA**

Ghana is submitting this request submission form for Climate Technology Centre and Network (CTCN) technical assistance on (behalf of Kenya, Mauritius and Namibia for a joint regional Green Cooling Africa Initiative. This joint regional request to the CTCN is to catalyze a network to support and accelerate technology transfer for Green Cooling technologies to our countries.

Through the initiative Ghana and the participating countries will benefit from the

1. transfer of know-how and technologies of energy efficient technologies,
2. use of low GWP refrigerants and enabling environments,
3. establishment of robust GHG Inventory on refrigerators, air conditioners and refrigerants.

The network will also support long term sustainable path for the cooling needs of African countries whilst best practices will be shared regionally and internationally.

By submitting this application, Ghana confirms her participation in the regional initiative and believes that through this support together with Kenya, Mauritius and Namibia we are willing to establish a model with best practices on Green Cooling Technology energy efficiency and refrigerants standards that can be replicated by other African countries.

Counting on your cooperation.

**Yours Faithfully,**

**E. Appah-Sampong**

**Ag. Deputy Executive Director**
