

# Session 4: Stakeholder engagement and national consultations

- Objectives
- Expected results
- Agenda for the session

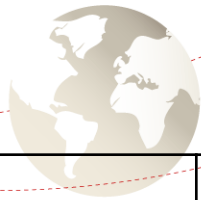

## Session 4:

# Stakeholder engagement and national consultations

### Objectives:

- Generally improving the understanding of the importance of stakeholder engagements and national consultations
- ...By:
  - providing an overview of related methods and working approaches
  - practicing jointly some selected methods for stakeholder engagements and national consultations

It is hoped that an improved understanding of stakeholder engagements and consultations should contribute to the main functions of the NDE: act as CTCN focal point, manage assistance requests, identify technology priorities and capacity building needs, run a consultative process to enhance public – private sector coordination and collaboration

| Time             | Item  | Remarks   |
