To:  
**Rose Mwebaza**  
Director  
Climate Technology Center and Network (CTCN)  
Marmorvej 51, 2100 Copenhagen, Dinamarca.

Subject: Endorsement for the analysis and mapping of the private sector, including NGOs and the academic world, for mitigation objectives and climate change adaptation needs. Analysis of local development and commercial banks, large companies, business groups and producer associations.

In my capacity as designated authority for the Climate Technology Center and Network (CTCN) in the Dominican Republic, I confirm that the technical assistance proposal is in accordance with the government's national priorities in the implementation of the Nationally Determined Contribution, Mitigation goals and Adaptation needs posed by climate change for the Dominican Republic.

Accordingly, I am pleased to support the above Technical Assistance proposal with the support of the Climate Technology Center and Network (CTCN) and the NDC Partnership. If approved, the project / program will be implemented by the National Council for Climate Change and Clean Development Mechanism of the Dominican Republic.

Sincerely,

Ing. Pedro García Brito, M.Sc.  
Director of Climate Change  
Ministry of Environment and Natural Resources
