**Jordan has issued its Third National Communication (TNC) on 2014 supported by UNDP, the TNC contains about 43 project ideas for Mitigation and many other ideas for Adaptation. By building our national capacities; we can develop these ideas to Proposals which eligible for funding and then implementation in related sectors as a Mitigation or Adaptation actions**

**Past and ongoing efforts** *(up to half a page):*

*{Please describe here past and on-going processes, projects and initiatives implemented in the country to tackle the difficulties and gaps explained above. Explain why CTCN technical assistance is needed to complement these efforts, and how the assistance can link or build on this previous work.}*

**None**

**Assistance requested** *(up to one page):*

*{Please describe here the scope and nature of the technical assistance requested from the CTCN and how this could help address the problem stated above and add value vis-à-vis the past and on-going efforts. Please note that the CTCN facilitates technical assistance and is not a project financing mechanism.}*

**The main purpose of this technical assistance requested from the CTCN is to enhance our skill in preparing proposals.**

**The expected results of this request are:**

- 1- Capacity building for 25 technical employee (Engineer) in Ministry of Environment and relevant Ministries and entities, in the field of How to develop a fundable proposal**
- 2- Have , at least , 3 proposals ready for funding and implementation in Energy, Water and Agriculture sectors**

**By these results we will be able to prepare proposals for our ideas and in all sectors**

**Expected benefits (up to half a page):**

*{Please outline here the medium and long-term impacts that will result from the CTCN technical assistance, including how the assistance will contribute to mitigate and/or adapt to climate change.}*

**The trained 25 Engineer will become national experts for preparing proposal.**

**They also will play the role of trainers in other locally arranged workshops for raise capacity building in preparing fundable proposal.**

**Jordan will have a number of proposals ready for funding, so it can achieve the target in reducing GHG emissions as intended**

**Post-technical assistance plans (up to half a page):**

*{Please describe here how the results of the CTCN technical assistance will be concretely used by the applicant and national stakeholders, to pursue their efforts of resolving the problems stated above after the completion of the CTCN intervention (list specific follow-up actions that will be undertaken).}*

**Key stakeholders:**

*{Please list in the table below the main stakeholders who will be involved in the implementation of the requested CTCN technical assistance, and what their role will be in supporting the assistance (for example, government agencies and ministries, academic institutions and universities, private sector, community organizations, civil society, etc.). <p><b>JREEF (Jordan Renewable Energy &amp; Energy Efficiency Fund), Jordan River Foundation, Environment protection Fund</b></p>	<p><b>These institutions have (Letter of approval ) from Ministry of Environment to be accredited entities for GCF, they are now in process to fill the application</b></p>

**Alignment with national priorities (up to half a page):**

*{Please demonstrate here that the technical assistance requested is consistent with documented national priorities (examples of relevant national priorities include: national development plans, poverty reduction plans, technology needs assessments (TNAs), LEDS, NAMAs, TAPs, NAPs, sectorial strategies and plans, etc.). For each document mentioned, please indicate where the priorities specifically relevant to this request can be found (chapter, page number, etc.)}*

**By implementing the 43 ideas in Mitigation (as mentioned in TNC); Jordan can decrease GHG emissions by 9%, but we can't implement these project without funding.**

**Also we identify water and agriculture sectors as our national priority in adaptation (according to our TNC and our on-going TNA)**

**According to our INDC; the unconditional outcome target is aiming at reducing Jordan's greenhouse gases (GHGs) emissions by 1.5 % by 2030 compared to a business as usual scenario levels. The conditional outcome target is aiming at reducing Jordan's GHGs emissions by 12.5 % by 2030**

**So we need to develop fundable proposals to achieve our targets.**

**Development of the request (up to half a page):**

*{Please explain here how the request was developed at the national level and the process used by the NDE to approve the request before submitting it (who initiated the process, who were the stakeholders involved and what were their roles, and describe any consultations or other meetings that took place to develop and select this request, etc.)}*

- 1- We arrange for a meeting with National Climate Change Committee (NCCC), to present CTCN and its assistance, and to discuss our priorities**
- 2- Contact NCCC officially to provide us with their Technical Assistance Requests**
- 3- Internal meeting for Climate Chang Directorate has taken place to discuss our Technical assistance demands, and select the main priority.**
