

Agenda item 9 (a)

Outcomes of the Bonn Climate Change Conference of June 2024

Technology Executive Committee, 29th meeting and TEC-CTCN AB Joint session
17-19 and 20 September 2024, Bonn, Germany

SBI 60 agenda item 13 Development and transfer of technologies and implementation of the Technology Mechanism: linkages between the Technology Mechanism and the Financial Mechanism

- Initial discussion on the linkages between the Technology Mechanism and the Financial Mechanism taking into account the submissions by Parties and other stakeholders, the synthesis report prepared by the secretariat, and the in-session workshop;
- Agreed to continue consideration of this matter at SBI 61 with a view to recommending a draft decision for consideration and adoption at COP 29, taking into account the draft text on the UNFCCC website.

SBI 60 in-session workshop on linkages between the Technology Mechanism and Financial Mechanism

Date: June 4

Mandate - Decision 10/CP.28

Requesting the TEC and the CTCN, in consultation with the SBI Chair, to organize an in-session workshop SBI 60 (June 2024) to take stock of the linkages between the Technology Mechanism and the Financial Mechanism taking into account the views expressed in the submissions.

Objective

In-session workshop took stock of the linkages between the Technology Mechanism and the Financial Mechanism, explored ways to maintain and enhance linkages and informed the negotiations of SBI 60 agenda item 13.

Innovation and technology in support of risk- informed climate adaptation and Early Warnings for All

Date: June 10

Overview:

Provided an engaging space for exchange of information and views among various actors involved in the technology implementation -particularly financial actors supporting technology solutions for improved climate information and early warning systems.

Discussions on:

- Current trends in needs and priorities of countries for technology development and transfer in support of climate information and early warning systems;
- Challenges, opportunities, and good practices for the deployment of such technologies; and
- People-centred and inclusive approaches in deploying technologies for climate information and early warnings, leaving no one behind.

Thank you!
