

*Update on
collaboration and engagement
with the FWG of the LCIPP*

Technology Executive Committee, 29th meeting and TEC-CTCN AB Joint session
17-19 and 20 September 2024, Bonn, Germany

Overview

Rolling workplan for 2023-2027

As per activity D7.1 of the rolling workplan, the TEC is to collaborate with FWG of the LCIPP on indigenous technologies, sciences, and innovations for climate resiliency.

Collaboration in 2023

- 2 FWG members made presentations at the TEC 27 meeting and shared updates on activities of FWG including the design of the LCIPP annual multi-stakeholder dialogue.
- TEC and FWG of the LCIPP co-organized LCIPP Multi-stakeholder Dialogue (Dubai, December 2023) which highlighted the role of Indigenous technologies and technologies from local communities in transformative climate action.

LCIPP Multi-stakeholder Dialogue at COP 28 *Transformative Technologies for Climate Action: Focusing on Indigenous technologies and technologies from local communities*

- Took place at COP 28, 3 December
- Co-organized by FWG of the LCIPP and the TEC
- Focus on Indigenous and traditional technologies, sciences, and innovations
- Showcased traditional knowledge systems from different UN Indigenous sociocultural regions for mitigation and adaptation
- Opening and closing remarks by TEC members, identify speakers for a few sessions.

Thank you!
