Eurasian Development Bank

EDB Green Investment Portfolio and Partnerships for Climate Action

UN CTCN NDE-NDA Coordination meeting

Evgenia Klochkova

Head of Office for Sustainability, EDB

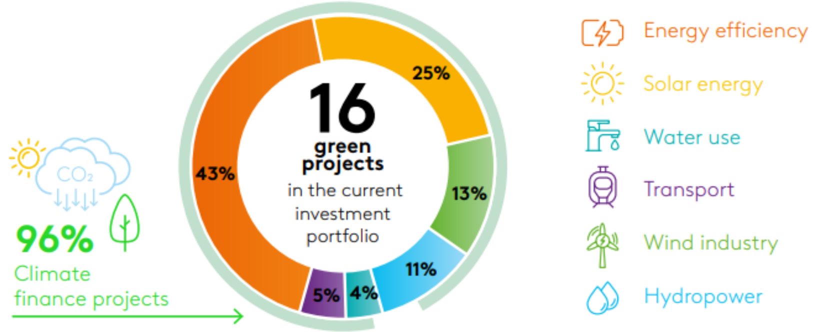
10 July 2026

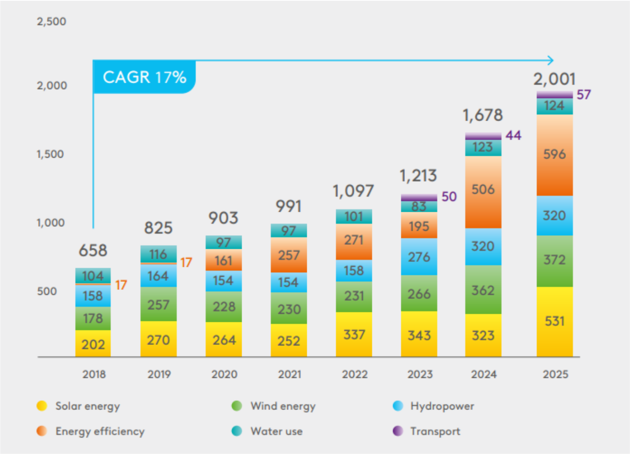
Unlocking the Potential of Green Finance in Central Asia is One of the Bank's Strategic Goals

As of 31 December 2025, projects that contribute to the UN SDGs achievement accounted for **25.1%** of the Bank's portfolio, exceeding the target by **1.7 times**

As at the end of 2025, the EDB's current green investment portfolio stood at **US$ 1.08 billion**

The cumulative portfolio reached **US$ 2 billion,** representing a **threefold increase** over the past 7 years





EDB's Green Portfolio Delivers Measurable Climate Impact

96%
climate mitigation projects in green portfolio

>370 thousand tonnes
annual GHG emissions reduction and prevention

-15%
reduction in emissions (Scope 1 + Scope 2 + Scope 3) intensity per USD million of the current investment portfolio YoY

CONSTRUCTION OF THE 300 MW TORU-AIGYR SOLAR POWER PLANT, ISSYK-KUL REGION OF THE KYRGYZ REPUBLIC

- **Capacity**: 300 MW
- **Project cost**: US$ 285 million
- **EDB participation**: US$ 180 million, alongside technical assistance to engage technical and legal consultants for project support
- **Expected outcomes**: annual clean energy generation of around 600 million kWh (approximately 30% of the current energy deficit), annual CO_2 emissions reduction of around 270 thousand tonnes, and new job creation (up to 29 jobs during the operational phase)

EDB Supports Projects with Environmental Outcomes through the Technical Assistance Fund and the Fund of Digital Initiatives

Examples of 2025 TAF Projects

- technical assistance for the construction of solar power plants with a total capacity of 425 MW in Kyrgyzstan and Kazakhstan
- interest rate subsidisation for construction a portfolio of biogas plants with an organomineral fertiliser production complex in Kazakhstan
- the development of business plans for the deployment of electrical energy storage systems (EESS) in Belarus

Examples of 2025 FDI Projects

- creation of the QazSu National Water Resources Information System of Kazakhstan designed to collect, systematise, analyse, and update the existing geospatial database on water bodies, hydraulic structures, water management basins and sections, hydrological stations, and other water sector assets
- developing the Clean Games international digital platform designed to organise team competitions for clearing natural areas and separating waste

EDB Promotes Sustainability Agenda together with International Partners

In 2025, EDB …

became a member of the Green Investment Principles for the Belt and Road (GIP)

joined the international non-profit organisation "The Agricultural Public Development Bank Coalition" (Agri-PDB)

obtained an observer status in the Coordination Committee of the Multilateral Cooperation Centre for Development Finance (MCDF)

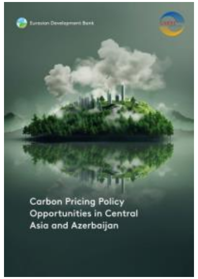
implemented a project "Supporting Sustainable Energy Development in Central Asia by Expanding Subregional and Inter-country Cooperation through the Exchange of Competences and Knowledge" in partnership with the UN ESCAP

signed an agreement the Ministry of Water Resources and Irrigation of Kazakhstan and the UNDP to implement the Developing a Business Ecosystem for Sustainable Irrigation project. The EDB provided US$ 5.3 million grant support to launch an initiative aimed at modernizing the irrigation system, improving water efficiency, and creating a sustainable business ecosystem

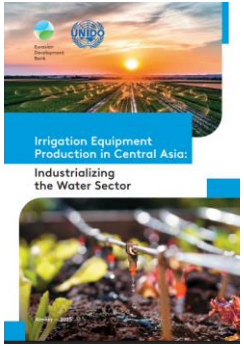
EDB Explores Practical Sustainable Development Solutions and Shares Knowledge and Experience with Partners

EDB Academy - a platform for expert knowledge aimed at realising the economic potential of the member states

- **task** – to transfer accumulated experience to improve the investment climate in the region
- **formats** - seminars, workshops, case sessions, and online courses
- **5** in-person training events conducted, with a total of over **200 participants**
- regional workshop **"Central Asia: Green Finance in Action. Instruments, Successes, Lessons"** held together with the AIFC Green Finance Centre, aimed at developing the competences of government agencies and strengthening regional cooperation in the field of green finance
- seminar **"Development of Renewable Energy in Central Asian Countries"** conducted, aimed at developing coordinated approaches to financing and developing RES projects



Joint report **"Opportunities for Carbon Pricing Implementation in Central Asia and Azerbaijan"** with the CAREC Institute



Joint report **"Irrigation Equipment Production in Central Asia: Industrializing the Water Sector"** with UNIDO

Joint report **"The Future of Islamic Finance in Central Asia"** with the IsDBI and LSEG
