

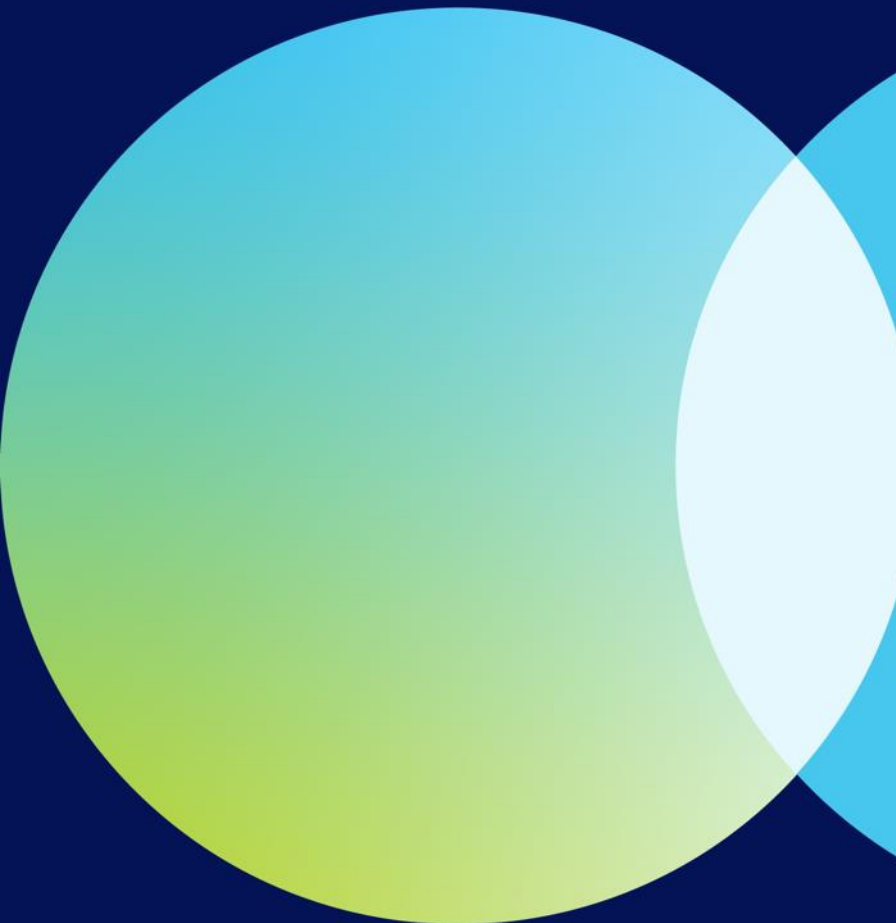

# Mapping Priorities and Opportunities for Regional Collaboration

Valentin Rudloff  
Climate Technology Expert  
NDE Forum for Eastern Europe  
8 September 2026

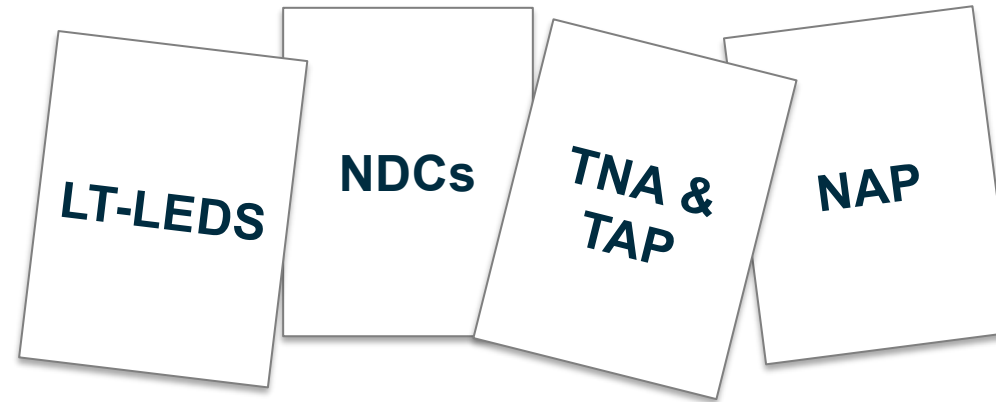

# **Session 6: Mapping Priority Sectors and Projects**

# Individual Exercise (30min)

**Step 1:** Review NDCs, TNAs, TAPs, NAPs, LT-LEDS and other relevant national documents.

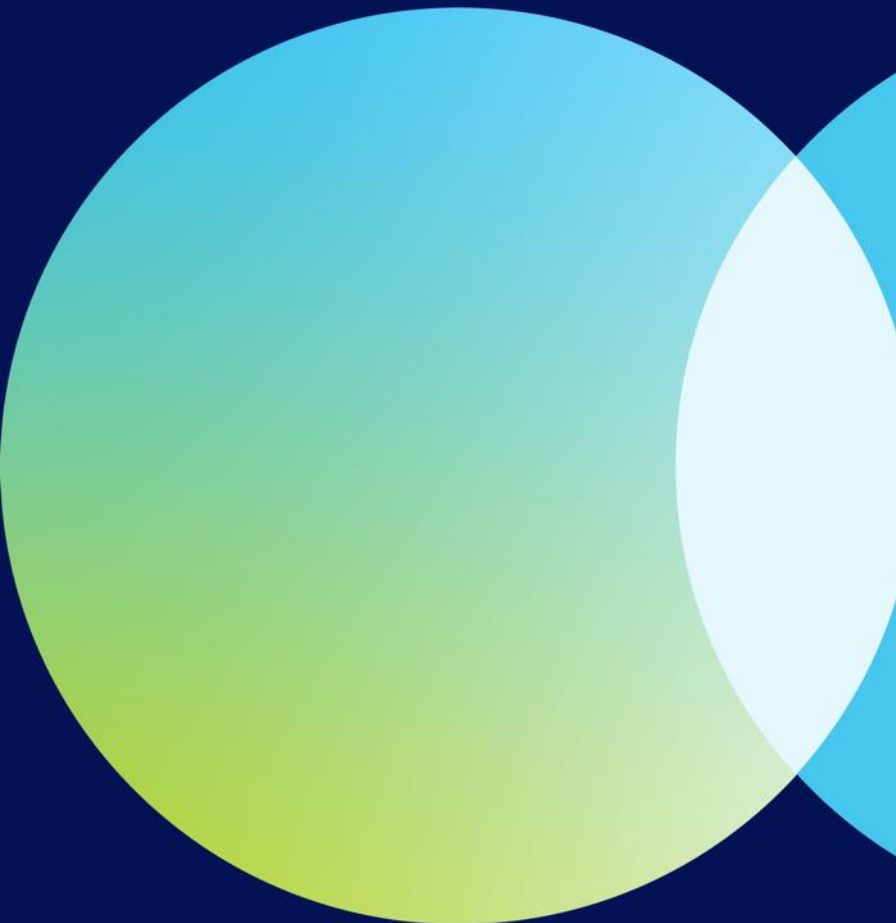

**Step 2:** Create an overview of technical assistance and capacity building needs. **Use one sticky note for one specific need.**

# Presentation and Discussion (30min)

**Step 3:** Share your mapped priority needs with the colleagues.

# **Session 7: Opportunities for Regional Collaboration**

# Group Exercise (30min)

Review the technical assistance and capacity building needs of all countries. **Create thematic clusters.**

## Energy systems

## Agriculture

## Buildings and human settlements

# Roundtable Discussion (30min)

## Guiding questions:

- Where do countries share common technical assistance and capacity-building needs?
- How these can be addressed collectively?
- What are concrete opportunities for regional collaboration and joint approaches to advancing climate technology priorities?
