

Private Sector: Needs and Expectation in Developing Countries

NDE Germany

- **National Contact Point for climate technology transfer within the UNFCCC**
- **Acting on behalf of the Federal Ministry for Economic Affairs and Energy since 2016**

Contact Point for Technology “Made in Germany”

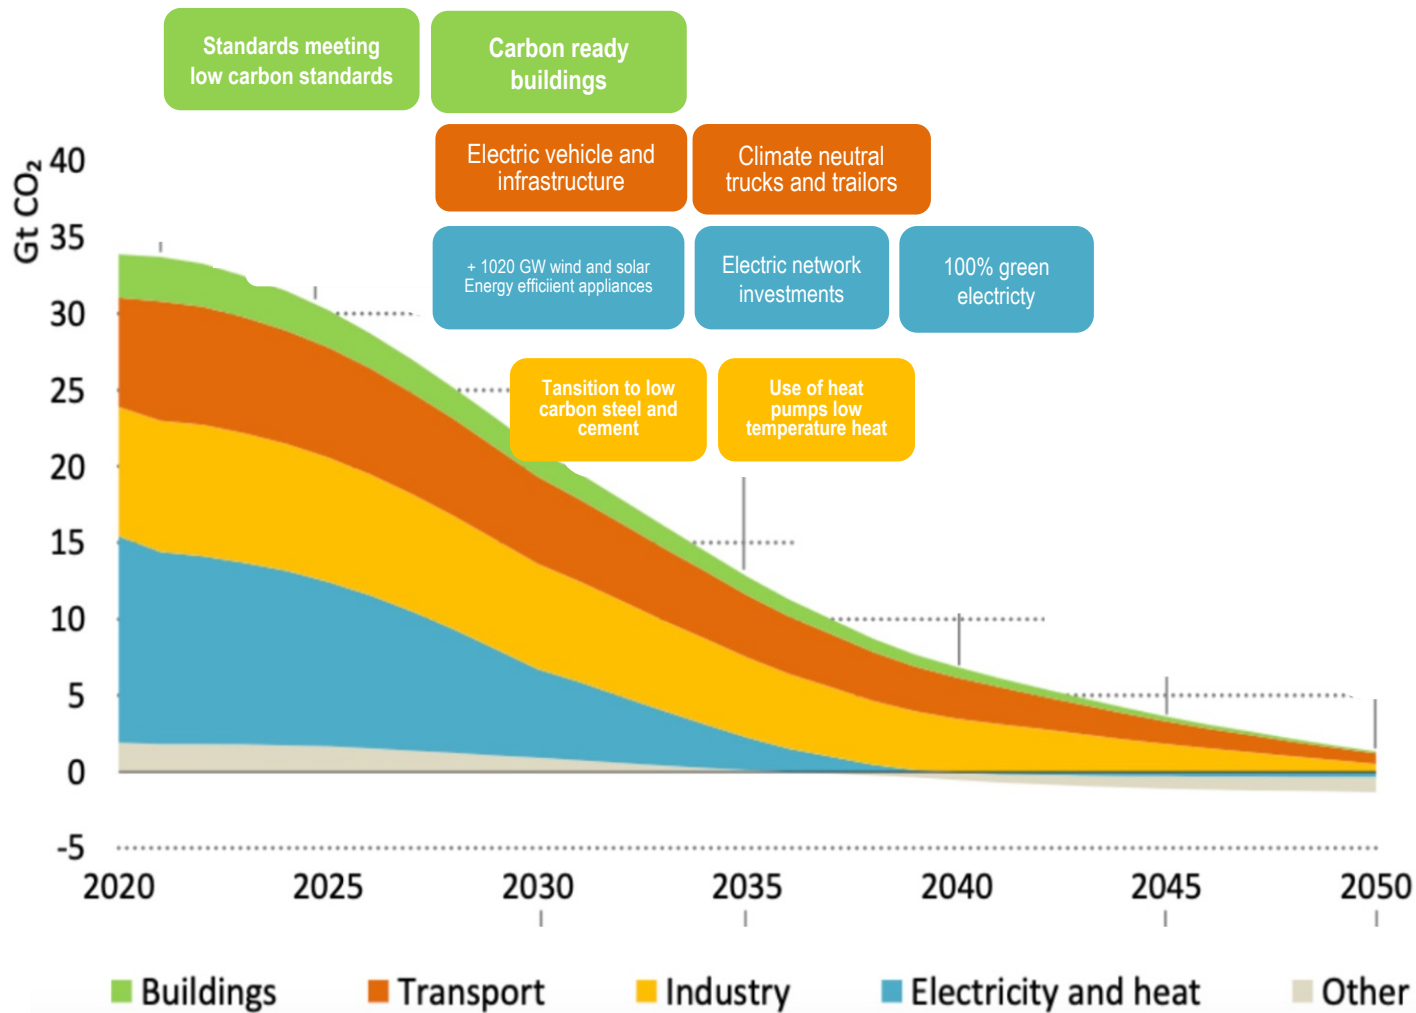

Participation in and organisation of matchmaking events: Germany and world wide

The screenshot shows the NDE Germany website interface. At the top, there is a navigation bar with links for Home, All companies, Mitigation, Adaptation, Institutional support, About, and News & Events. Below the navigation bar, there is a search bar for technology. The main content area is divided into two columns. The left column lists 'Mitigation technology sectors' including Energy efficient cities and infrastructure, Low-mobility mobility and transport, and Sustainable water and recycling management. The right column lists 'Adaptation technology sectors' including Climate-adapted agriculture and fishery, Meteorological intelligence and climate simulation, and Water management. There are also links for 'Other mitigation technology sectors' and 'Other adaptation technology sectors'. On the right side of the page, there is a 'Welcome to NDE Germany' section with a brief introduction and a 'News' section.

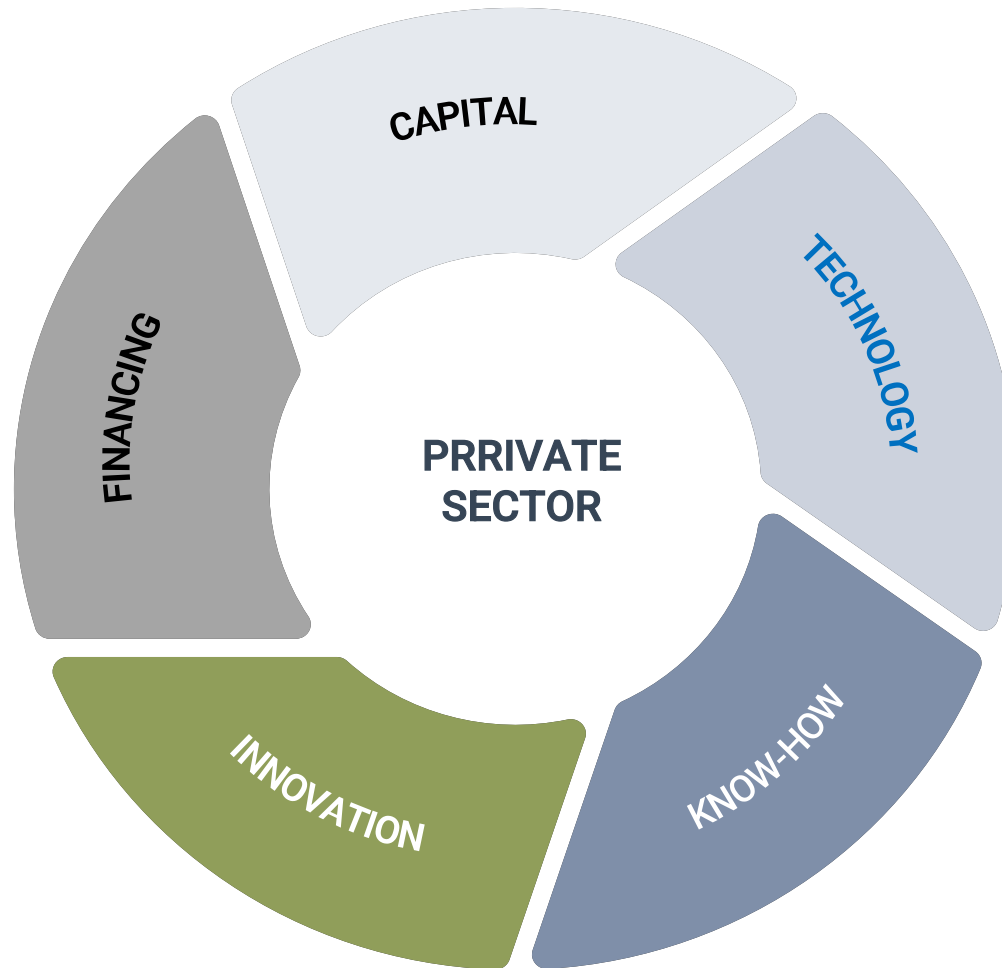

The required transformational change

Source: IEA Net Zero by 2050

The needs and expectations of developing countries from private sector investments

Case study: African Green Tec

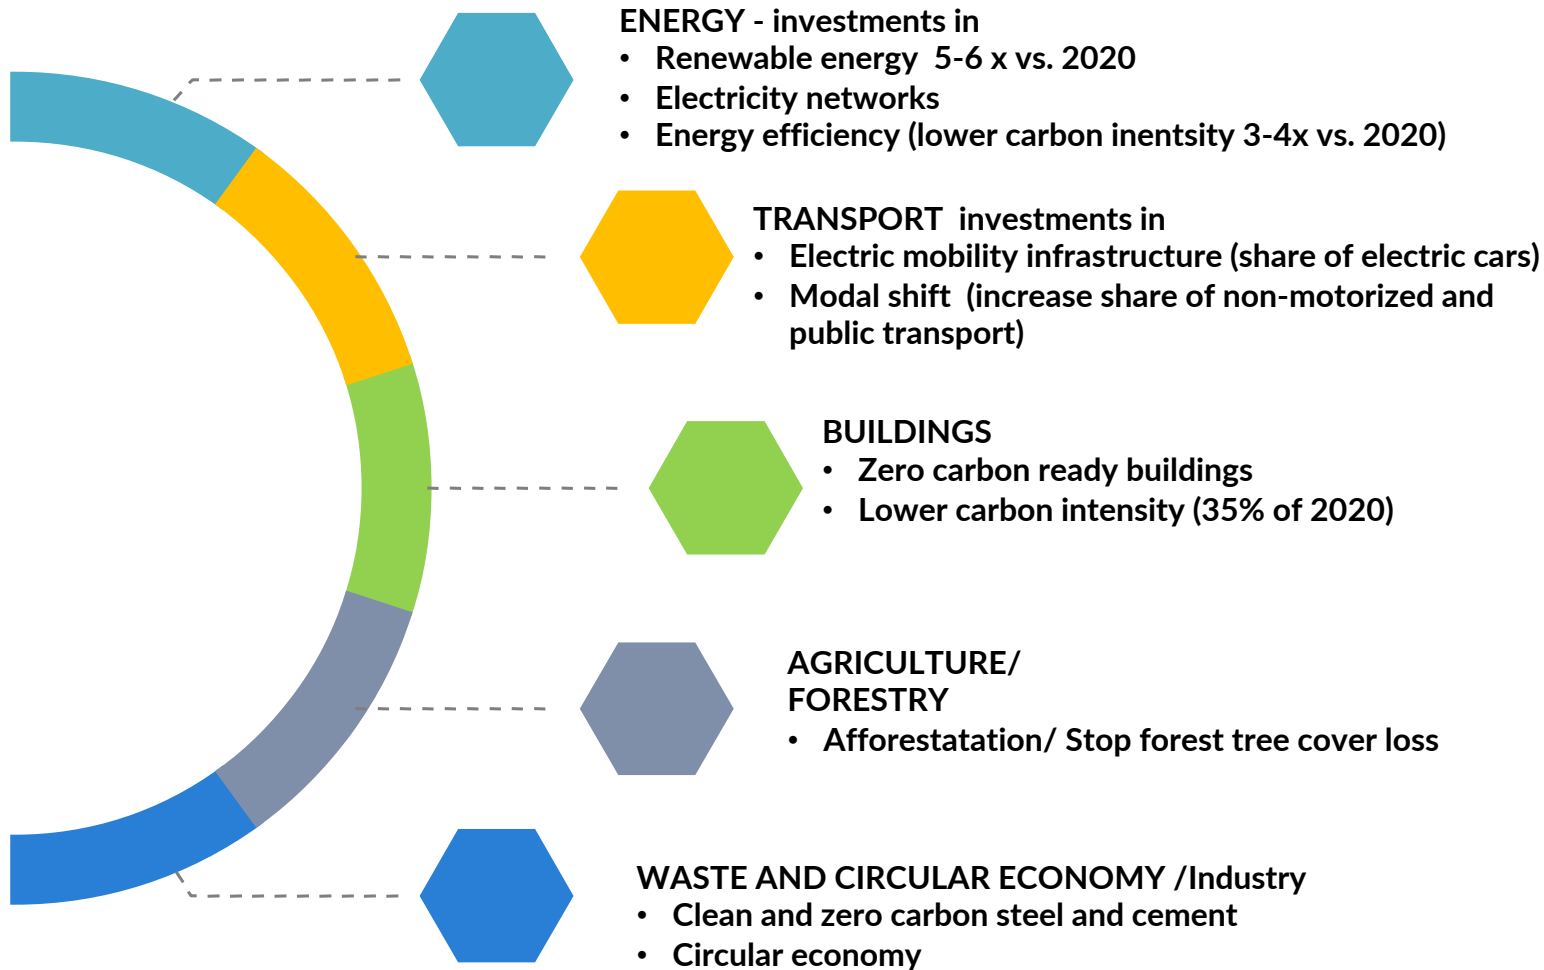

- Innovate Germany company
- Supply of solar containers to villages

Case study: Africa Green Tec

- Electricity to over 20 villages in Mali and Niger
- Funding from equity, bond, MDB, crowdfunding

Critical private sector action in main sectors

Thank you!
