CLIMATE TECHNOLOGY CENTRE & NETWORK
UNFCCC Technology Mechanism

Session 3: Collaboration between the CTCN and other Entities

CTCN Regional Forum for LAC

Montevideo, Uruguay – August 20th 2018

Dr. Rhianna M. Neely-Murphy – Senior Environmental Officer, CTCN
Focal Point

CTCN in the context of a GCF Proposal

- Collaboration
 - Assisted in the development of feasible ideas to address problems
- Support
 - They acted as a conduit for us between the UNFCCC and the GCF

Purpose of the TA Request

- Readiness program
- 30% by 2033
 - Grid Stability Study

Advantages of the Collaboration

- Addressed many of our system focused questions
- Navigating the proposal writing process
- Facilitated responses to the GCF during the review process
- Builds on our experience for future projects

Advantages of the Collaboration

- Technical assessments, including technical expertise and recommendations related to specific technology needs, technology efficiency, as well as piloting and deployment of technologies.
- Technical support for policy and planning documents, include strategies and policies, roadmaps and action plans, regulations and legal measures
- Trainings

Project Scale Up

- TA assists in:
 - Planning
 - Analysis of human capacity/ Skill
 - System security
 - Builds capacity

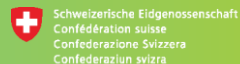

Lesson Learned

- Pay attention to deadlines
- Engage the National stakeholders early and often
