

9a) Participation of network members in CTCN activities beyond Technical Assistance

6th Advisory Board Meeting

United Nations
Framework Convention on
Climate Change

COP Decision on Network Member Activities

Decision 1/CP. 16 para 123 : “...shall facilitate a network of national, regional, sectoral and international technology networks, organizations and initiatives with a view to engaging the participants of the Network effectively in the following functions:

(a) At the request of a developing country Party:

(i) Providing advice and support related to the identification of technology needs and the implementation of environmentally sound technologies, practices and processes;

(ii) Facilitating the provision of information, training and support for programmes to build or strengthen capacity of developing countries to identify technology options, make technology choices and operate, maintain and adapt technology;

(iii) Facilitating prompt action on the deployment of existing technology in developing country Parties based on identified needs...”

Climate Change

Activities with Network members

NDE Regional Fora & Conferences

- Expert Panel contributions in
 - NDE Fora in Thailand, Tanzania, Senegal, Armenia, Costa Rica
 - CTCN Side event – Carbon Expo
 - CTCN Side event - Vienna Energy Forum 2015
 - CTCN Side event - World Social Science Forum, “Transforming Global Relations for a Just world”
 - ICIMOD – Nepal 2016 (in discussion)

CTCN Webinars

- WIPO – Enabling the development and diffusion of sustainable technologies: The practical uses of intellectual property (IP)
- RETScreen International - RETScreen: a Tool for Greenhouse Gas Mitigation
- IEAGHG: Biomass with carbon capture and storage – A review at the systems level

Knowledge Sharing

- Knowledge source for the Knowledge Management System & Technology Library

United Nations
Framework Convention on
Climate Change

Activities with Network members

- Strategic partnership with the **Global Opportunity Report**
 - Includes UN Global Compact; WBCSD; and DNVGL
- **COP21-Business Climate Summit – Paris**
- **WBCSD/IEA Low Carbon Technology Partnership Initiative (LCTPi)**
 - Regional Dialogues – India, South Africa, Brazil & China
 - Side events during COP 21

United Nations
Framework Convention on
Climate Change

Developed Country NDE Roles

➤ Annex I Countries

Technology Library

- Access to information of available technologies
- Examples of successful technology transfer programmes

Country support programmes

- Sharing Market assessments and technology potential /roadmaps
 - Institutions supporting developing countries (bilateral organizations for example: JICA, GIZ, etc)
 - Institutional strengthening
- **A number of donors have expressed interest in explicitly linking and recognizing ongoing bilateral cooperation activities in the context of CTCN. In such cases, what is the value added and operative role of CTCN?**

Engaging Network Members in Supporting NDEs

Request for Technical Assistance

- Network members support NDEs in the identification and formulation of technical assistance to the CTCN

National / Sub national technology dialogue and capacity building

- Coordinate and organise national/regional events for the following purposes:
 - to promote the CTCN services
 - collaborations linked to the services of the CTCN
 - Dialogue and capacity building on specific technology solution

Questions to the Board

Question(s) to the Board

- Should Network members be stimulated/encouraged to work with NDEs in formulating Technical Assistance Requests? Under what conditions?
- Should NDEs be provided with additional support and funding for national coordination (MLF Model)?

9b) CTCN relationship with other multilateral organizations (UN or non-UN), regional initiatives, existing networks on technology transfer

6th Advisory Board Meeting

United Nations
Framework Convention on
Climate Change

CTCN Relationship with Multilateral Organizations

- A number of multilateral organizations have approached CTCN to be partners
- Some of them are receptive to the idea of being a CTCN network member.
- Multilateral or Regional organizations which are CTCN network members (or are in process of applying for being network members) are :
 - ICIMOD, WIPO, REN21, REEEP, GRID-Arendal, SPREP, IRRI, CAREC
- Multilateral organizations have expressed interest for being partners and are agreeable to sign MOUs
 - IRENA, FAO, ECOWAS
- Multilateral Development banks have also shown interest to be partners to the CTCN through an appropriate instrument.
