

Climate Technology Network in a snapshot – As of 13 July 2017

Introduction

The Network's mission is to provide a platform for academia, NGOs, research institutions and the private sector to actively partner with governments; identify barriers to technology transfer; exchange technology experiences; and provide technical assistance and capacity building to developing countries at a global scale in a timely manner. This ability is not solely provided by the mere size and wide range of capacities of the Network, but also by its capabilities to deliver the expertise that is demanded by those seeking assistance from the CTCN. Due to the nature of the mission of the CTCN, it is essential to equip the Network with necessary technical and regional expertise even though the demand is not clearly defined.

The CTCN will monitor the needs and capacity of the Network on a continual basis. In this regard, direct and indirect contact has been made with more than 1000 relevant institutions inviting them to join the CTCN. Responses have been positive as interest to join the CTCN has been expressed by a number of stakeholders and the Climate Technology Network continues to grow at a steady pace.

Overview

- 370 total applications received
- 341 accepted Network members (see Annex I)
- 27 applications under assessment
- 2 applications declined

Since the 9th Advisory Board meeting, the CTCN has received an additional 76 Network membership applications. As shown in *Figure 1*, the number of applications has grown steadily over the past 40 months and it is anticipated that this trend will continue with the active promotion of the Network by the CTCN. Based on the country of registration of Network members, *Table 1* shows the geographic distribution of the network members. International organizations refer to those established under multinational agreements or equivalent with or without official registration in a single country. *Table 2* shows the geographical distribution of the network members by their outreach of activities. Details of each member, including the country of registration, are listed in *Annex I*.

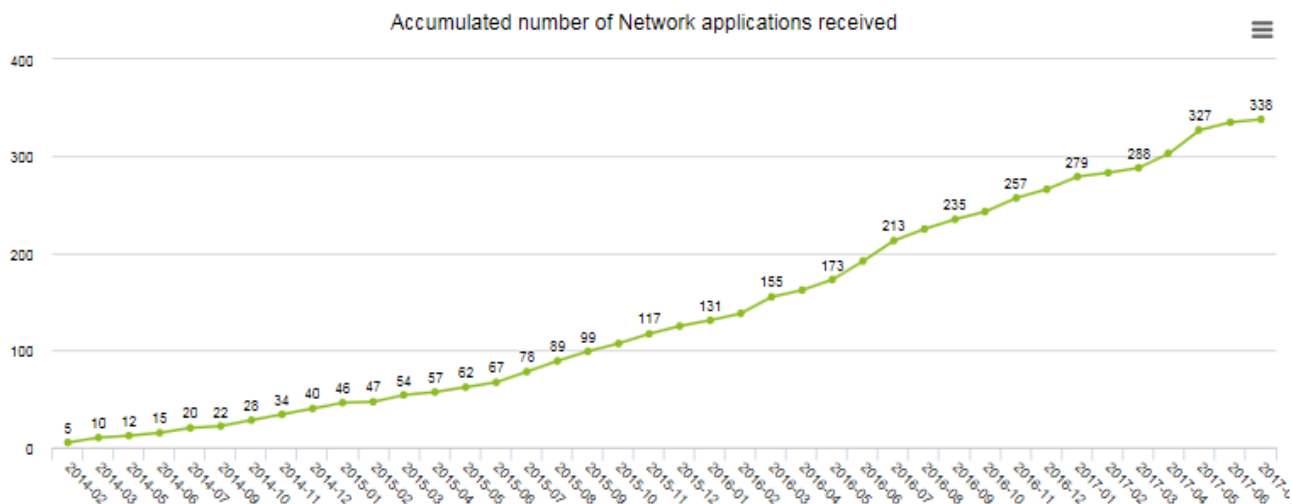

Figure 1 Accumulated number of Network applications received

Regional distribution (by Annex)	Number
Annex I	162
Americas	39
Asia	7
Europe	149
Oceania	6
Non-Annex I	168
Africa	25
Americas and the Caribbean	33
Asia	107
Europe	3
International	11
Total	341

Table 1 Network members by region (by Annex) based on country of registration

Distribution by regional scope of activities	Number
Africa	606
Caribbean, Central America and South America	380
Asia	632
Eastern Europe	80
Oceania	47

Table 2 Network member distribution based on geographical scope of activities (by region)

Network membership criteria

The criteria set by the Advisory Board are applied by the Network and Capacity Building Manager and form the basis of a recommendation for approval of the Director. The criteria are continuously monitored and have remained the same since the 6th Advisory Board.

Network membership criteria remain appropriate and the CTCN is not proposing any changes to the criteria at this time.

Members by type of institution

Figure 2 shows the network composition by type of institution. The figure shows that the private sector represents 40 per cent of total network memberships and is the largest component of the network amongst all types of institutions. Academic and research organizations also constitute a large portion of the network at 23 per cent of total network memberships.

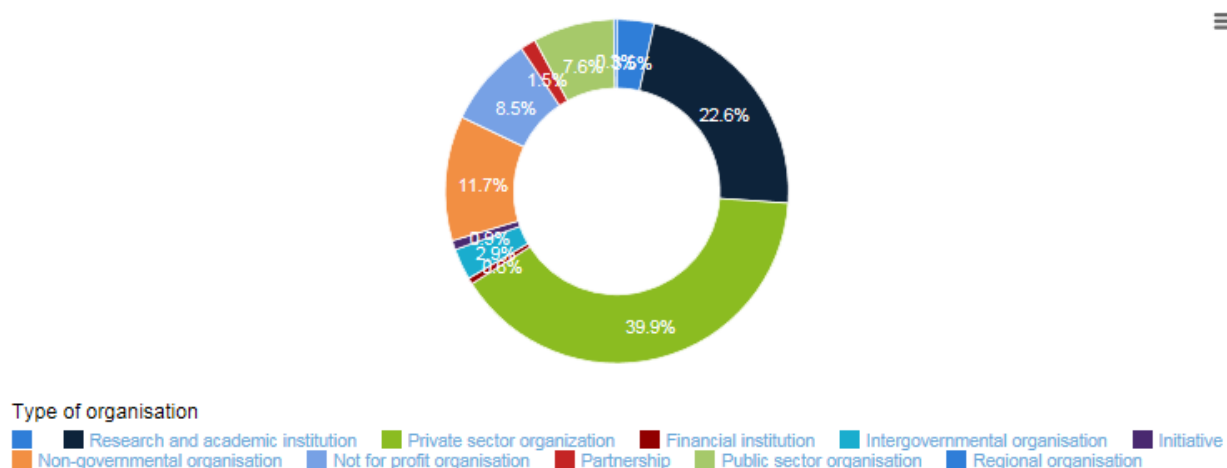

Figure 2 Network by type of institution

Members by expertise

This section outlines the capacity of the Network to perform its functions. The organizations’ expertise has been assessed based on the information provided in the CTN application form. Most of the organizations are experienced in more than one mitigation and/or adaptation sectors, regions or service types and the bar charts present the number of organizations out of the total Network membership having experience in each sector, region, and service type.

a. Mitigation vs adaptation

The total number of Network members having expertise in climate change mitigation, adaptation and cross-cutting activities is 304, 224, and 198, respectively (Figure 3). Currently, the Network has more coverage in climate change mitigation and less in climate change adaptation. “Cross-cutting” expertise refers to “Ecosystems and biodiversity”, “Gender”, “Disaster risk reduction” and “Community based activities”.

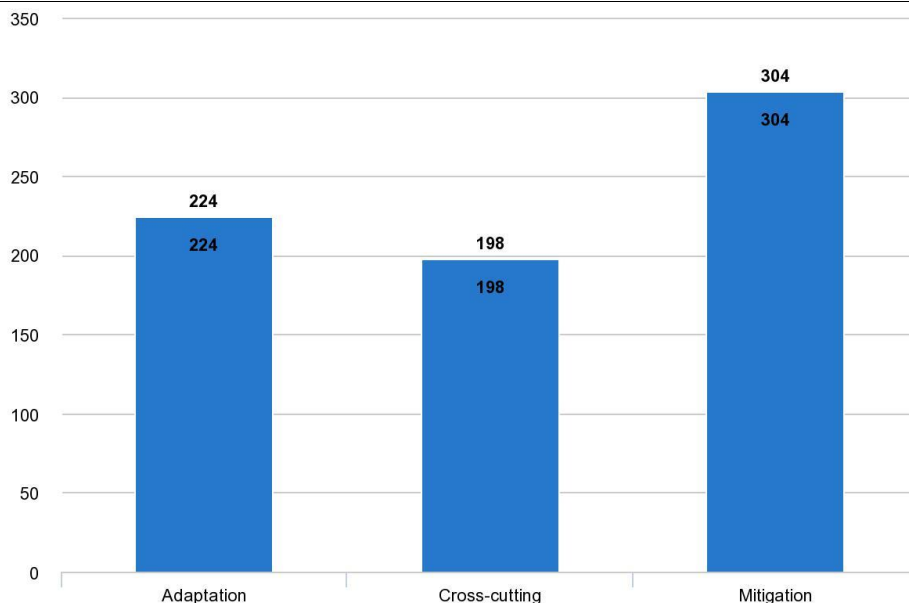

Figure 3 Expertise of Network members

b. Sector coverage

Figure 4 shows the sectoral coverage of Network members for mitigation expertise. While the expertise in energy dominates, network membership in other focus areas are sufficiently deep to support TA mitigation requests received from developing countries. .

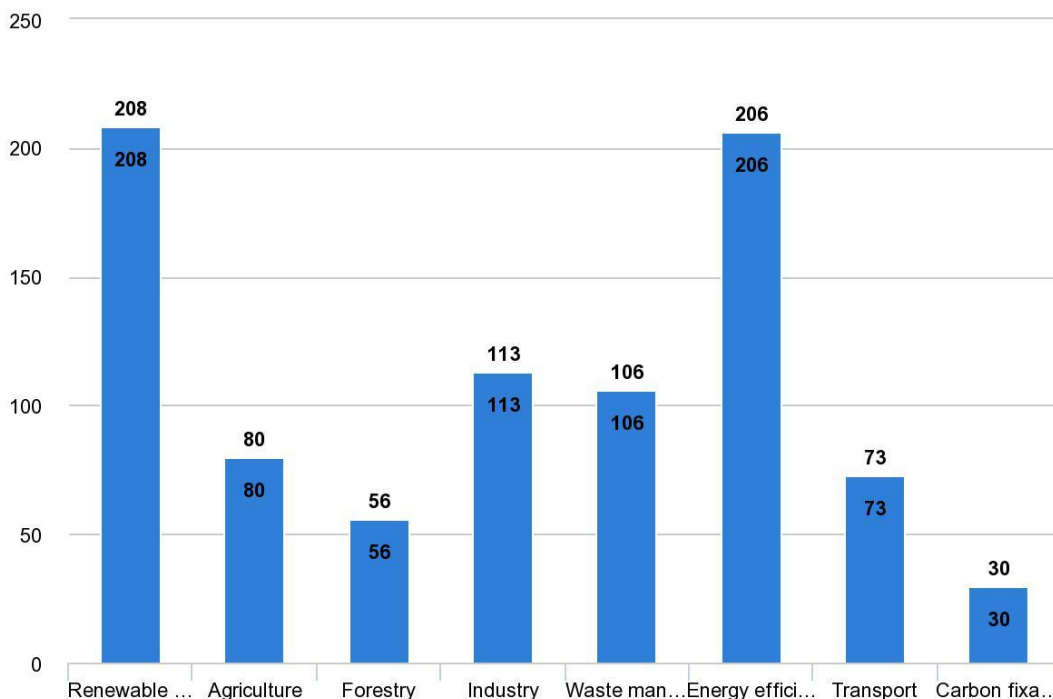

Figure 4 Number of Network members having expertise in various climate change mitigation sectors

Figure 5 shows the total sectoral coverage of Network members for adaptation expertise. The overall coverage is adequate and would serve the current needs of the CTCN.

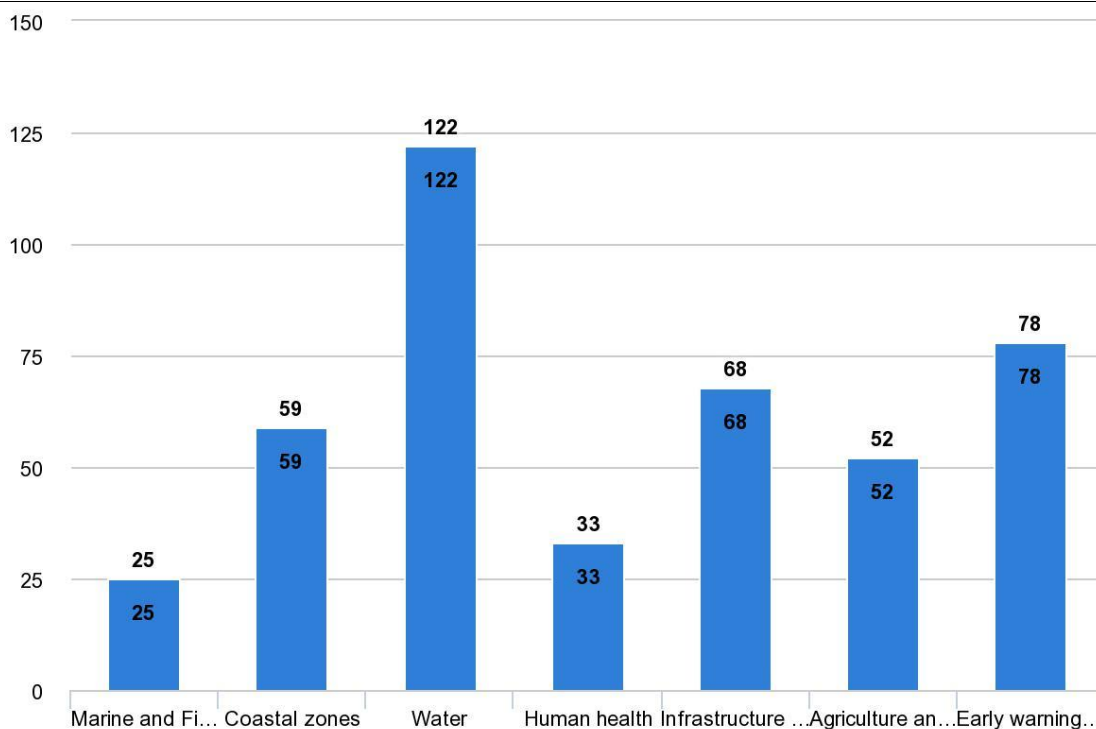

Figure 5 Number of Network members having expertise in various climate change adaptation sectors

c. Service capacities

Figure 6 shows the service capacities of the Network. The Network has a relatively good coverage of network members providing their services on capacity building, knowledge sharing and policy and planning. The number of network members providing their services aimed at “Investments” could be improved. However, their capacity is sufficient to meet demand as per the current trend for technical assistance requests.

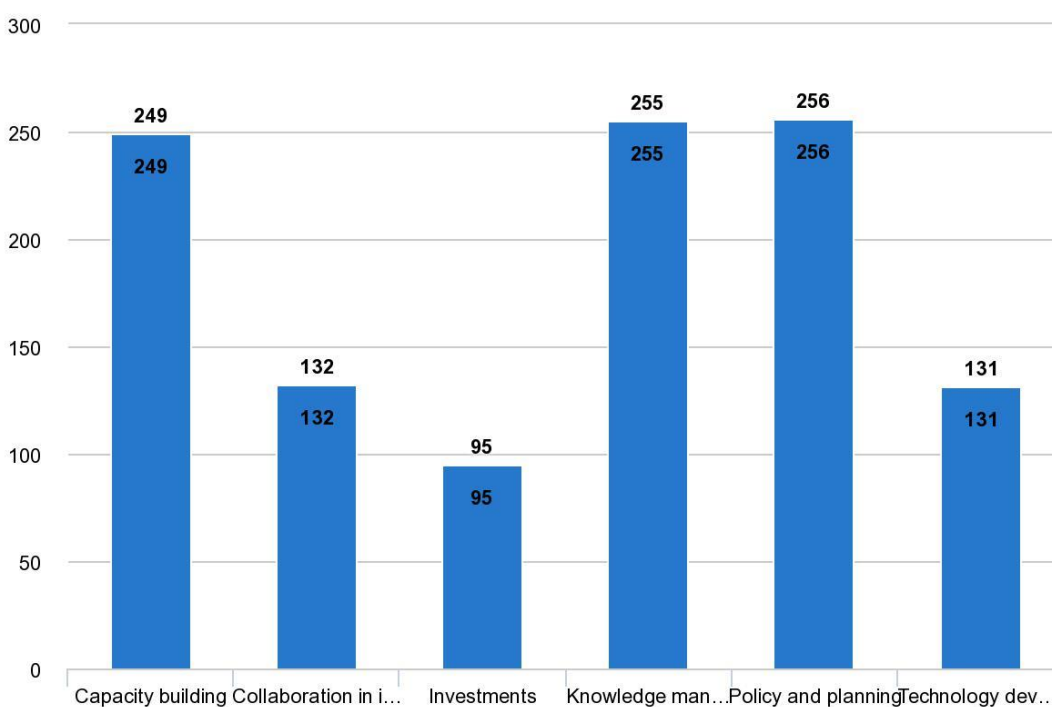

Figure 6 Number of Network members having expertise by various types of service

Figure 7 shows the Network’s abilities in cross cutting issues. While the Network has a relatively good coverage of community based activities, ecosystems and diversity and disaster risk reduction, it was observed that expertise in gender related activities can be improved.

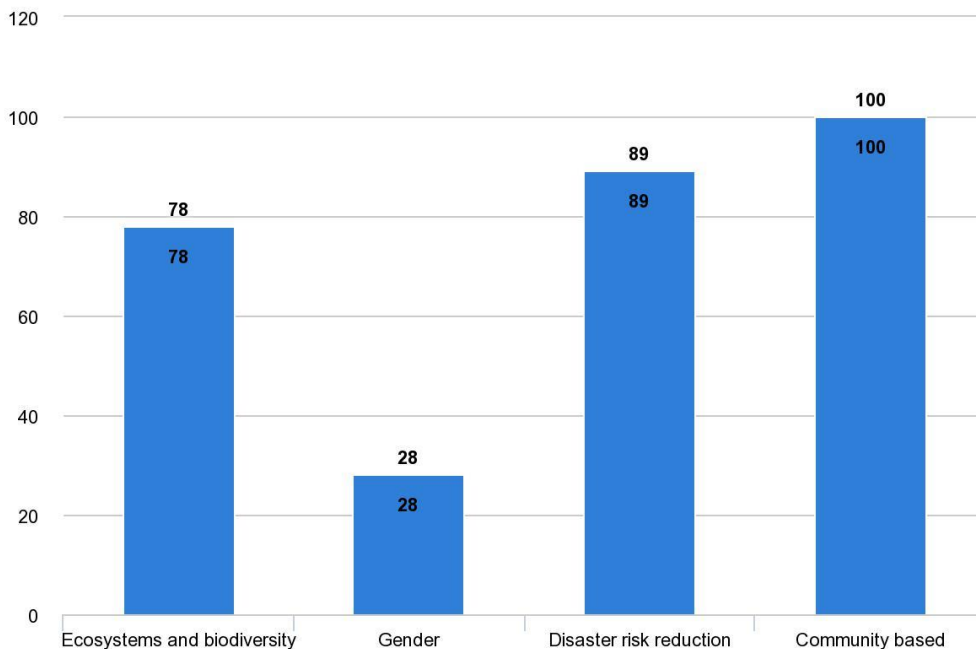

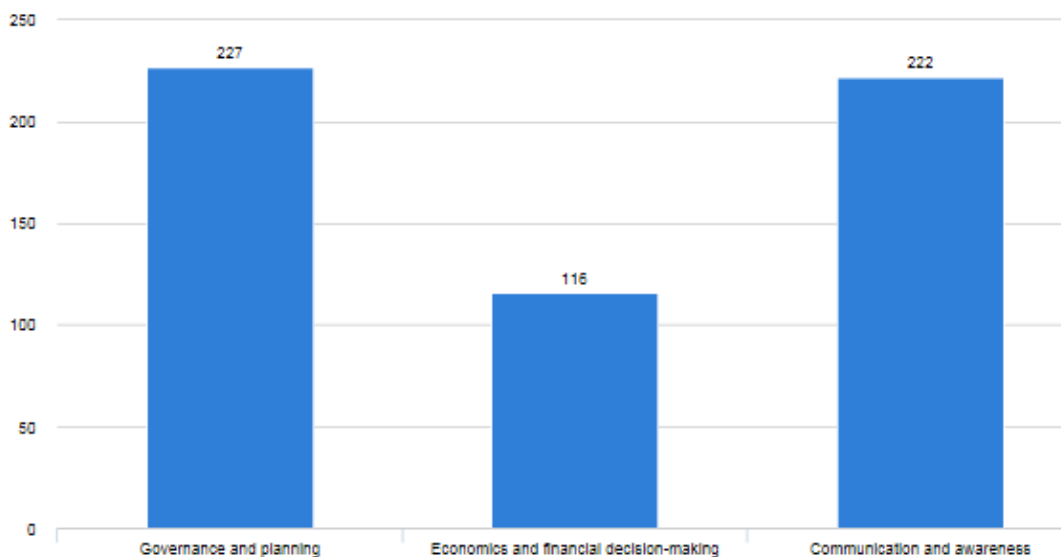

Figure 8 shows the Network’s experience in enabling activities. The Network has good coverage of governance and planning and communication and awareness.

Online application assessment process and the Network section of the CTCN website

Since the 9th Advisory Board meeting, the CTCN has finalised the implementation of an online Network membership application assessment functionality. The online process allows for faster assessment of applications, automatic creation of Network membership profiles on the CTCN website, tagging of technology related key words to Network members profiles, filtering of Network members based on their

expertise, countries of registration and geographic regions of expertise and online visual reports on the status of the Network..

CTC Network engagement

Since the 9th Advisory Board meeting, the CTCN has approached the Network members with:

- 8 Technical Assistance requests that have been opened for Network member bidding;
- 5 webinars organised through the CTCN webinar platform by Network members;
- Invitations to the CTCN Forum for Central Asia and Eastern Europe in Georgia;
- Invitations to the CTCN Regional Forum for Asia in Indonesia;
- Invitations to the CTCN Scoping Workshop: Supporting "First-of-a-kind" Climate Technology in Denmark;
- Webinar invitations;
- Monthly newsletters; and
- Email notifications about bidding opportunities for open Technical Assistance bids.

Network members are also requested to provide feedback on their involvement with each TA request through a structured template. The template focuses on requesting network members to share their experience and provide comments on the technical assistance received by developing countries. The template also seeks their willingness to contribute towards the implementation of the TA on a pro bono basis.

Furthermore, the entire Network membership has been contacted to request the contribution of resources and documents to the CTCN's library of technologies with clear instructions on how to share the material with the CTCN. Network members have already started sharing resources and documents which have been added to the library of technologies and linked to Network membership profiles.

Annex I – List of Network members

Acronym	Network Member	Registered in	Type of organisation
CEMENTIS	CEMENTIS GmbH	Switzerland	Private sector organization
METEOLIEN	METEOLIEN ScopARL	France	Private sector organization
COWATER	Cowater International Inc.	Canada	Private sector organization
AEDL	Alpha engineering & design (2012) ltd	Trinidad and Tobago	Private sector organization
ARCA	ARCA Consortium S.A.	Spain	Private sector organization
I CARE	I CARE & CONSULT	France	Private sector organization
LTS	LTS International	United Kingdom	Private sector organization
EQO-NIXUS	EQO-NIXUS Advisory, Management and Training Services, SL	Spain	Private sector organization
AG	AERA GROUP	France	Private sector organization
SLG Glow	SLG Co., Ltd.	Republic of Korea	Private sector organization
TECNALIA	Fundación Tecnalia Research and Innovation	Spain	Research and academic institution
ERM Southern Africa	Environmental Resources Management Southern Africa Pty Ltd.	South Africa	Private sector organization
AAE	Asesoramiento Ambiental Estratégico	Uruguay	Private sector organization
PEC	Pure Energy Center	United Kingdom	Private sector organization
NTPC Ltd	NTPC Limited	India	Public sector organisation

ECOVISION	The Union for Sustainable Development Ecovision	Georgia	Non-governmental organisation
CIMA Foundation	Centro Internazionale in Monitoraggio Ambientale	Italy	Research and academic institution
DGC	DG Consulting Ltd	Georgia	Private sector organization
JBA	Jeremy Benn Associates Limited	United Kingdom	Private sector organization
Acclimatise	Acclimatise Group Ltd	United Kingdom	Private sector organization
ED	Environment and Development	Georgia	Non-governmental organisation
OECS	Organisation of Eastern Caribbean States Commission	Saint Lucia	Intergovernmental organisation
IWRP	Institute of Water Resources Planning	Viet Nam	Public sector organisation
PCG	Perspectives Climate Group GmbH	Germany	Private sector organization
MDF WA	Management for Development Foundation West Africa Limited	Ghana	Private sector organization
4PEL	Fourth Partner Energy Private Limited	India	Private sector organization
Laera	Grupo Laera Ltda	Colombia	Research and academic institution
HYDROC	HYDROC	Germany	Private sector organization
CAH	CONSULAQUA Hamburg Beratungsgesellschaft mbH	Germany	Public sector organisation
METEOSIM	METEOSIM, S.L.	Spain	Private sector organization
Antea Group	Antea Belgium	Belgium	Private sector organization
GOPA Consultants	Gesellschaft für Organisation, Planung und Ausbildung mbH	Germany	Private sector organization
VIGMR	Vietnam Institute of Geosciences and Mineral Resources	Viet Nam	Public sector organisation
Winrock International	Winrock International Institute for Agricultural Development	United States	Not for profit organisation
CLIMsystems	CLIMsystems Ltd	New Zealand	Private sector organization
BUP	Bangladesh Unnayan Parishad	Bangladesh	Research and academic institution
KCRC	Korea Carbon Capture & Sequestration R&D Center	Republic of Korea	Research and academic institution
Burnside	R.J. Burnside International Limited	Canada	Private sector organization
AER	AER	France	Private sector organization
LSIS	LSIS Co., Ltd	Republic of Korea	Private sector organization
AMID	AMID Development Management Consultant Team	Iran	Private sector organization
WOCAN	Women Organizing for Change in Agriculture and Natural Resource Management	United States	Non-governmental organisation
KTD	KenTec Denmark ApS	Denmark	Private sector organization
EM	Ecology Management ApS	Denmark	Private sector organization
IRRI Mexico	Instituto Internacional de Recursos Renovables A.C.	Mexico	Non-governmental organisation
Efficacitas	Eficiencia Energética y Ambiental Efficacitas Consultora Cía. Ltda.	Ecuador	Private sector organization
CITEPA	International Technical Centre on Air Pollution and Climate Change	France	Not for profit organisation
CIMNE	Centre Internacional de Mètodes Numèrics en l'Enginyeria	Spain	Research and academic institution
CENER 21	Association Centre for Energy, Environment and Resources	Bosnia and Herzegovina	Non-governmental organisation

INIAP	Instituto Nacional De Investigaciones Agropecuarias	Ecuador	Research and academic institution
FING	Faculty of Engineering of the University of the Republic (UDELAR)	Uruguay	Research and academic institution
KPCQA	Korea Productivity Center Quality Assurance	Republic of Korea	Research and academic institution
SWI	Smith Warner International Ltd.	Jamaica	Private sector organization
XacBank	XacBank, LLC	Mongolia	Financial institution
ADS	AD Solutions UG (haftungsbeschränkt)	Germany	Private sector organization
BASE	Basel Agency for Sustainable Energy	Switzerland	Not for profit organisation
ALTEREA	ALTEREA	France	Private sector organization
TARU	Taru Leading Edge Pvt Ltd	India	Private sector organization
KHI	Khavaran Institute of Higher Education	Iran	Research and academic institution
Nitlapan UCA	Research and Development Institute, Nitlapan UCA	Nicaragua	Research and academic institution
SPCAM	South Pole Carbon Asset Management	Switzerland	Private sector organization
	3WAYSTE	France	Private sector organization
CIEMAT	Centre for Energy, Environment and Technology Research	Spain	Research and academic institution
FOKABS	FOKABS INC.	Canada	Private sector organization
DAPP	D'Appolonia	Italy	Private sector organization
EED	Energy and Environmental Development Research Center	China	Private sector organization
KPMG Korea	KPMG Samjong Accounting Corp.	Republic of Korea	Private sector organization
POSCO Energy	POSCO ENERGY Co., Ltd.	Republic of Korea	Private sector organization
CCC	Climate Change Center	Republic of Korea	Not for profit organisation
IV	InnoVentum AB	Sweden	Private sector organization
Acciona Ingeniería	ACCIONA Ingeniería, S.A.	Spain	
FORCEBEL	FORCEBEL Co. Ltd.	Republic of Korea	Private sector organization
BAASTEL	Le Groupe-conseil baastel	Canada	Private sector organization
Pfi	Partners for Innovation	Netherlands	Private sector organization
KoFPI	Korea Forestry Promotion Institute	Republic of Korea	Public sector organisation
IUCN	International Union for Conservation of Nature and Natural Resources	Switzerland	Intergovernmental organisation
BRE	Building Research Establishment Limited	United Kingdom	Research and academic institution
CL	Carbon Limits AS	Norway	Research and academic institution
GHGMI	Greenhouse Gas Management Institute	United States	Research and academic institution
ICCCAD	International Centre for Climate Change and Development (Independent University Bangladesh)	Bangladesh	Research and academic institution
CTL	CPCS Transcom Limited	Canada	Private sector organization
SCL	Shree Cement	India	Private sector organization
VNEEC	Energy and Environment Consultancy Joint Stock Company	Viet Nam	Private sector organization
Factor	Factor Ideas Integral Services, S.L.	Spain	Private sector organization
CMCC	Fondazione Centro Euro-Mediterraneo sui Cambiamenti	Italy	Research and academic institution
VITO	Vlaamse Instelling Voor Technologisch Onderzoek	Belgium	Research and academic institution

CIMA	Centro de Investigaciones del Mar y la Atmósfera	Argentina	Research and academic institution
GAN	Green Asia Network	Republic of Korea	Non-governmental organisation
EC	Energy Changes Projektentwicklung GmbH	Austria	Private sector organization
BLD	Bishop Land Design	United States	Private sector organization
BSPower	Byucksan Power	Republic of Korea	Private sector organization
IDEA	Integrated Development Association	Sri Lanka	Non-governmental organisation
SEED Kolkata	Society for Socio Economic and Ecological Development	India	Non-governmental organisation
ARTELIA	ARTELIA Eau & Environnement	France	Private sector organization
UMORE	UMORE Consulting	China	Private sector organization
IDDI	Instituto Dominicano de Desarrollo Integral	Dominican Republic	Not for profit organisation
KOTHOWAIN	KOTHOWAIN (vulnerable peoples development organization)	Bangladesh	Non-governmental organisation
DE	DE Design and Environment Inc.	Canada	Private sector organization
Adapt-Chile	Asociación Adapt Chile	Chile	Not for profit organisation
ENP	ECO&PARTNERS	Republic of Korea	Private sector organization
G-Global	Coalition for “green” economy and development “G-Global”	Kazakhstan	Public sector organisation
NIHORT	National Horticultural Research Institute	Nigeria	Research and academic institution
ECO Consult	ECO Consult Sepp & Busacker Partnerschaft	Germany	Private sector organization
UNU-INWEH	United Nations University – Institute for Water, Environment and Health	Canada	Research and academic institution
FBDS	Fundação Brasileira para o Desenvolvimento Sustentável	Brazil	Not for profit organisation
EED Advisory	EED Advisory Limited	Kenya	Private sector organization
	Pegasys Institute	South Africa	Not for profit organisation
CCS	Center for Creativity and Sustainability Study and Consultancy	Viet Nam	Non-governmental organisation
PwC - India	PwC Price Water House Coopers - India	India	Private sector organization
BlackToGreen	BlacktoGreen Consulting, S.L.	Spain	Private sector organization
SEEE	Shanghai Environment and Energy Exchange	China	Public sector organisation
K-Water	Korea Water Resources Corporation	Republic of Korea	Public sector organisation
AESA	Agriconsulting Europe S.A.	Belgium	Private sector organization
STEPI	Science and Technology Policy Institute	Republic of Korea	Research and academic institution
KAERI	Korea Atomic Energy Research Institute	Republic of Korea	Research and academic institution
ENCPC	Egypt National Cleaner Production Center	Egypt	Intergovernmental organisation
BEC	Byucksan Engineering Co., Ltd	Republic of Korea	Private sector organization
CMMCh	Centro Mario Molina, Chile	Chile	Research and academic institution
KEPCO	Korea Electric Power Corporation	Republic of Korea	Public sector organisation
SFL	Solar for Life	Canada	Not for profit organisation
WHRC	Woods Hole Research Center	United States	Research and academic institution
S2 Services Sarl	Sustainable Solution Services Sarl	Cameroon	Private sector organization

GELC	Global Efficient Lighting Centre	China	Public sector organisation
Black Soil	Black Soil	Argentina	Private sector organization
IFDC	International Fertilizer Development Center	United States	Research and academic institution
KIOST	Korea Institute of Ocean Science & Technology	Republic of Korea	Research and academic institution
SamilPwC	Samil PricewaterhouseCoopers, Sustainability and Climate Change (S&CC) Service	Republic of Korea	Private sector organization
CLASP	Collaborative Labeling and Appliance Standards Program, Inc.	United States	Non-governmental organisation
RRECPC	Rwanda Resource Efficient and Cleaner Production Centre	Rwanda	Cleaner production Centre
KNPC	Kenya National Cleaner Production Centre	Kenya	Cleaner production Centre
CPCT	Cleaner Production Centre of Tanzania	Tanzania	Cleaner production Centre
DELTARES	DELTARES	Netherlands	Research and academic institution
CREARA	Creara Consultores SL	Spain	Private sector organization
Sri Lanka NCPC	National Cleaner Production Centre of Sri Lanka	Sri Lanka	Cleaner production Centre
Russia NCPC	National Cleaner Production Centre of the Russian Federation	Russian Federation	Cleaner production Centre
CEGESTI	Fundación Centro de Gestión Tecnológica e Informática Industrial	Costa Rica	Non-governmental organisation
ECAT Tirana	Environmental Center for Administration and Technology	Albania	Cleaner production Centre
POSTECH	POSTECH (Pohang University of Science and Technology)	Republic of Korea	Research and academic institution
Climate-KIC	Climate-KIC Holding B.V.	Netherlands	Not for profit organisation
	Zimbabwe National Cleaner Production Centre	Zimbabwe	Cleaner production Centre
Serbia NCPC	Faculty of Technology and Metallurgy, Cleaner Production Centre Serbia	Serbia	Cleaner production Centre
UCPC	Uganda Cleaner Production Centre	Uganda	Cleaner production Centre
CECOEF	Centro de Ecoeficiencia Paraguay - Asociacion Paraguaya para la Calidad	Paraguay	Cleaner production Centre
CNP+ LH	Centro Nacional de Produccion mas Limpia de Honduras	Honduras	Cleaner production Centre
KEI	Korea Environment Institute	Republic of Korea	Research and academic institution
Green Academy	Scientific Research and Education Center "Green Academy"	Kazakhstan	Research and academic institution
