

CTCN Information Session
CTCN Experiences: Perspectives of NDEs and Technical Assistance Providers

Part 1: Tuesday 29 August 2017 at 17:30 – 18:30*
Part 2: Wednesday 30 August 2017 at 9:00 – 10:00*
Venue: UN City, Copenhagen, Denmark

The Climate Technology Centre and Network (CTCN) promotes the accelerated transfer of environmentally sound technologies for low carbon and climate resilient development at the request of developing countries. The CTCN is in its fourth year of operations, has completed numerous responses to requests for technical assistance from developing countries and is starting to experience greater visibility regarding intended impacts.

Description:

This event will reflect on CTCN services from the perspective of National Designated Entities (NDEs), proponents and Implementers who have first-hand experience with the CTCN's technical assistance. The presentations will provide insights into how CTCN technical assistance translates into activities on the ground, including a view into in-country outcomes and impacts as a result of CTCN technical assistance.

The CTCN is also assisting some NDEs with the submission of proposals to access GCF funding through the GCF Readiness Programme to facilitate further CTCN technical assistance. NDE experiences with the GCF process will also be shared.

Agenda:

(on next page)

Livestream webcast:

This information session will be webcast live at the link below.
