

CTCN Information Session
NDE Experiences: Technical Assistance Outputs and Intended Impacts

Part 1: Monday 3 April 2017 at 17:15 – 18:15*

Part 2: Tuesday 4 April 2017 at 9:00 – 10:00*

Venue: UN Campus, Bonn, Germany

The Climate Technology Centre and Network (CTCN) promotes the accelerated transfer of environmentally sound technologies for low carbon and climate resilient development at the request of developing countries. The CTCN is in its fourth year of operations, has completed numerous responses to requests for technical assistance from developing countries and is starting to experience greater visibility regarding intended impacts.

Description:

This event will reflect on CTCN services from the perspective of National Designated Entities (NDEs) who have first-hand experience with the CTCN's technical assistance. The presentations will provide insights into how CTCN technical assistance translates into activities on the ground, including a view into in-country outcomes and impacts as a result of CTCN technical assistance.

The CTCN is also assisting some NDEs with the submission of proposals to access GCF funding through the GCF Readiness Programme to facilitate further CTCN technical assistance. NDE experiences with the GCF process will also be shared.

Agenda:

Agenda:

Time*	Session	Speaker
3 April 2017	CTCN Information Session (part 1)	
17:15 – 17:20	Introduction to the session, part 1	Moderator: Patrick Nussbaumer
17:20 – 17:45	Ghana Experiences Technical Assistance Projects: <ul style="list-style-type: none"> Improving resiliency of crops to drought through strengthened early warning within Ghana Green Cooling Africa Initiative (multi-country request) 	Mr. Joseph Amankwah Baffoe, NDE of Ghana
	Dominican Republic Experiences Technical Assistance Projects: <ul style="list-style-type: none"> Capacity Building to Develop a Biological Mountain Corridor in Los Haitises A Community Based Early Warning System in Every Pocket from Santo Domingo, D.N. Developing a NAMA to Leapfrog to Advanced Energy Efficient Lighting Technologies 	Mr. Pedro Garcia Brito, NDE of Dominican Republic
17:45 – 18:15	Question and Answer period	Moderator: Patrick Nussbaumer
4 April 2017	CTCN Information Session (part 2)	
9:00 – 9:05	Introduction to the session, part 2	Moderator: Patrick Nussbaumer
9:05 – 9:35	Senegal Experiences Technical Assistance Projects: <ul style="list-style-type: none"> Development of Energy Efficiency Projects in Industries and Services Green Technology Deployment in Industrial Zones 	Mr. Issakha Youm, NDE of Senegal
	Uganda Experiences Technical Assistance Projects: <ul style="list-style-type: none"> Formulating Geothermal Energy Policy, Legal and Regulatory Framework Strategy for a National Pay-as-you-go Policy and Mechanisms to Enhance Rural Off-Grid Solar Energy Access and Clean Cookstoves Climate Resilient Decision Making Methods for Lake Victoria 	Mr. Maxwell Otim Onapa, NDE of Uganda
	Chile Experiences Technical Assistance Projects: <ul style="list-style-type: none"> Incubating Climate Technologies in Small and Medium Enterprises in Chile Design of a National Network for Monitoring Ecosystem Resilience in the Face of Climate Change Replacement of F-Refrigerants Used in Refrigeration System in Food Processing Production and Exports 	Ms. Paulina Ulloa, NDE of Chile
9:35 – 10:00	Question and Answer period	Moderator: Patrick Nussbaumer

* Times are approximate and are dependent on the progress of the 9th Advisory Board meeting of the CTCN
