

Agenda item 6.c

Independent review of the CTCN

CTCN-AB, 9th meeting

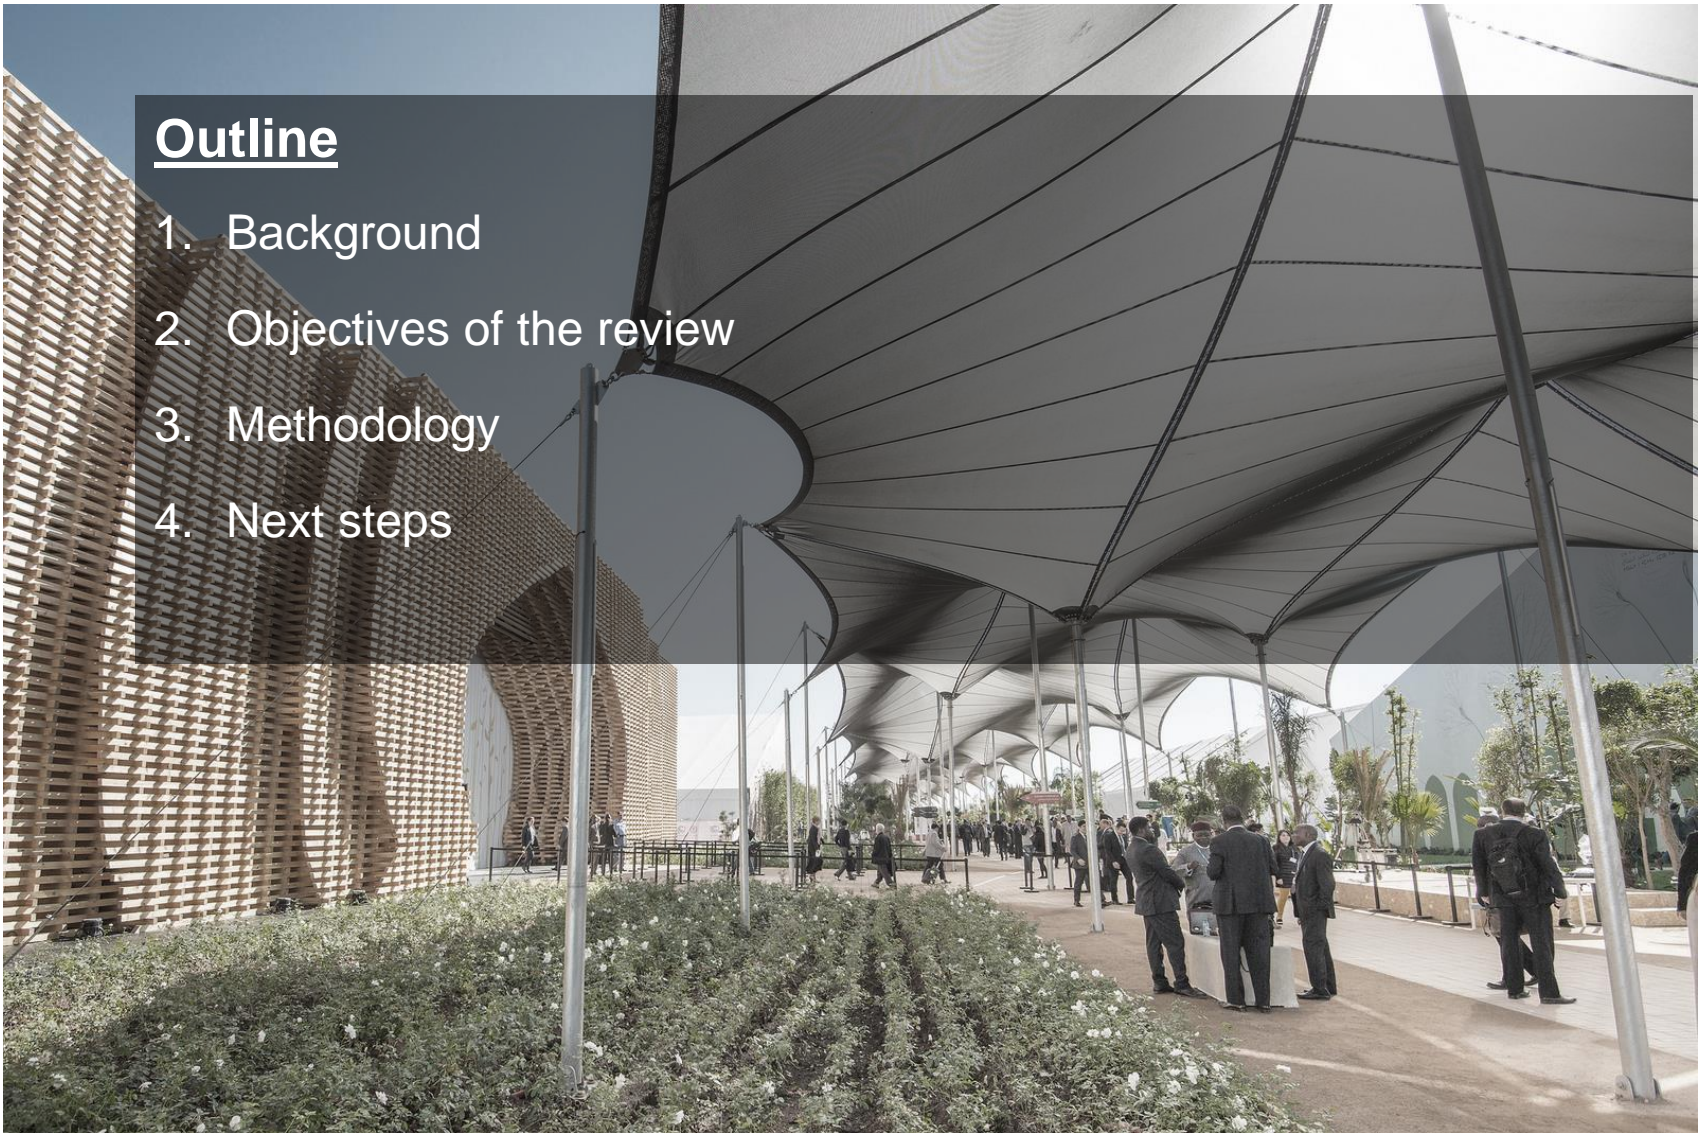

Bonn, Germany, 3 – 5 April 2017

Mr. Bert van der Plas
Finance, Technology and Capacity-Building Programme
UNFCCC Secretariat

Outline

1. Background
2. Objectives of the review
3. Methodology
4. Next steps

1. Background

Mandate (Dec. 2/CP.17)

- UNFCCC secretariat, subject to the availability of resources, shall commission an **independent** review of the effective implementation of the CTCN four years after its inception (2017).
- Findings of the review, including any recommendations regarding enhancing the performance of the CTCN, will be considered by the COP 23.
- Subsequently, periodic independent reviews of the effectiveness of the CTCN will be conducted every four years.

Process

- UNFCCC secretariat has hired the services of a consultancy firm to conduct the CTCN review.
- Followed UN procurement rules in procuring these services.
- Kick-off meeting took place in November 2016.

2. Objectives of the review

- Conduct an independent review of the effective implementation of the CTCN.
- Develop recommendations for enhancing CTCN's performance.

3. Methodology

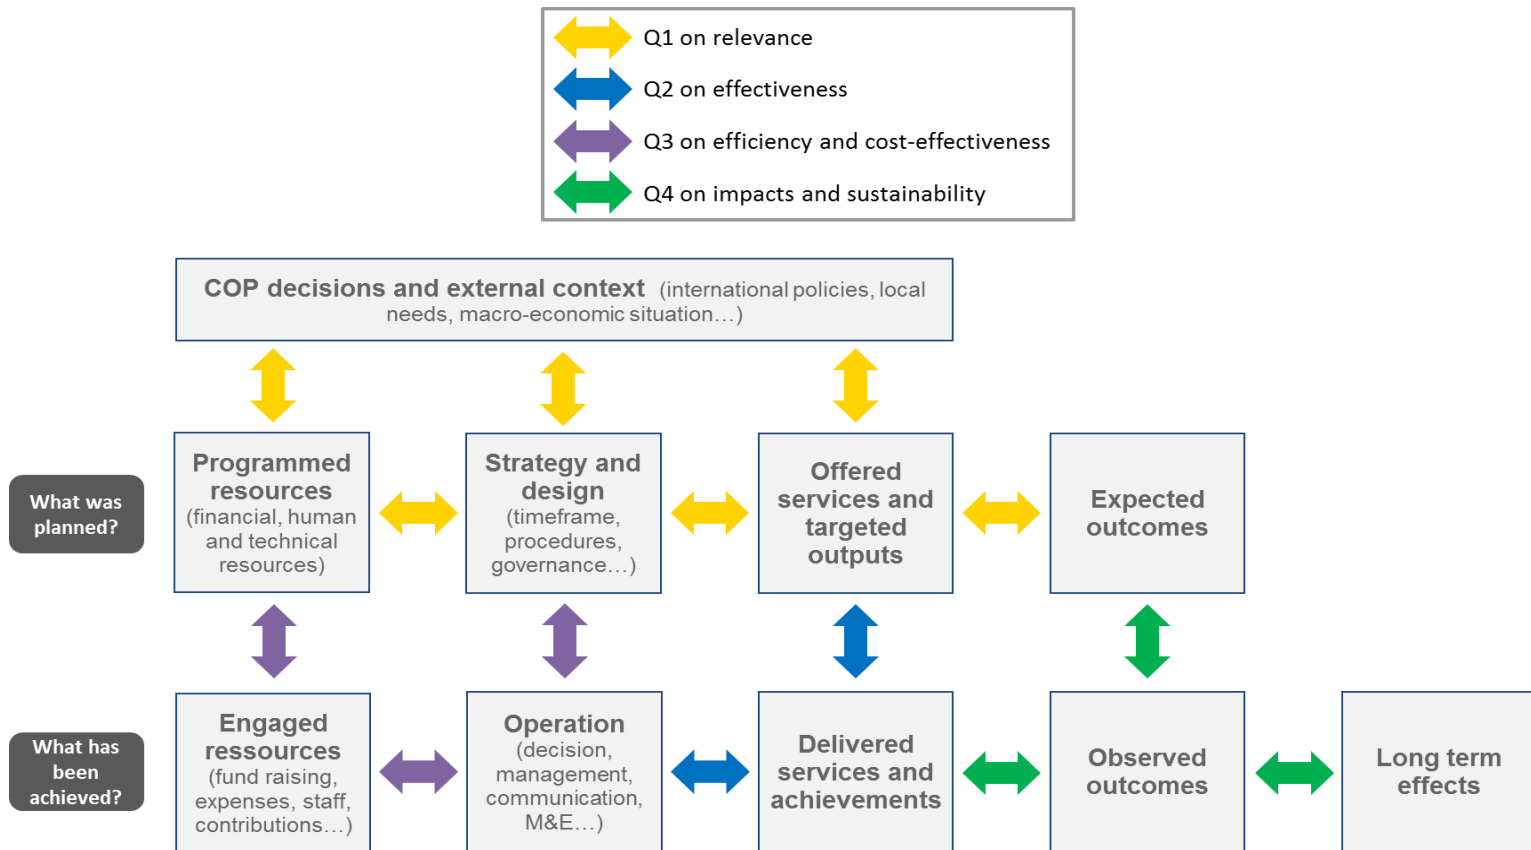

Review questions

- **Relevance:** Are the strategy and the resources of the CTCN relevant and appropriate regarding the priorities given by the COP and the local needs for support?
- **Effectiveness:** Have the objectives of the CTCN been achieved in terms of (i) technical assistance (ii) knowledge management, peer learning & capacity building (iii) outreach, networking and stakeholder engagement?
- **Efficiency:** Have the objectives of the CTCN been achieved economically and on time by the establishment of the CTCN and the deployment of its services?
- **Impacts and sustainability:** Did the CTCN reach its expected outcomes and provide long term, positive and replicable effects?

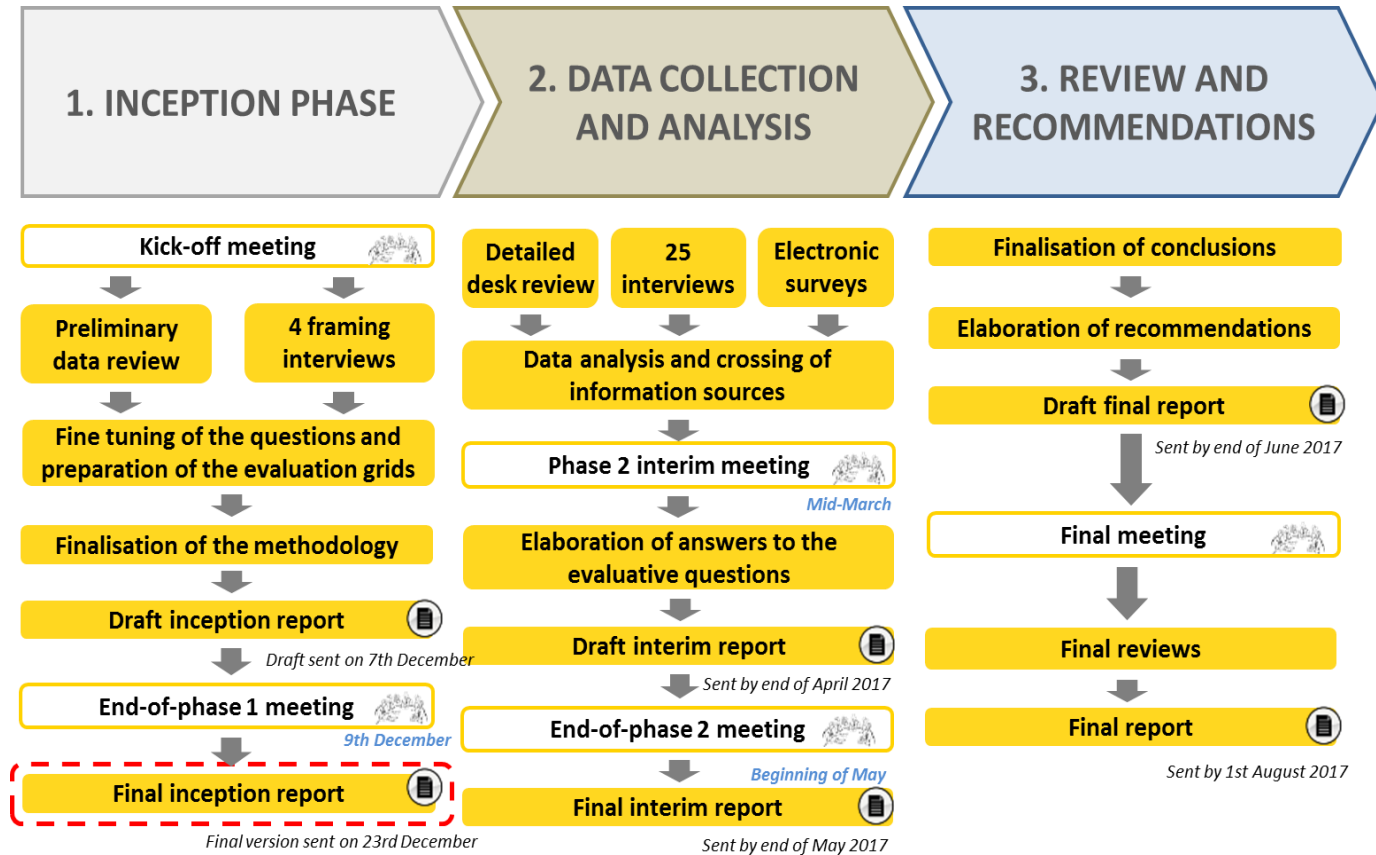

Note: For each review question evaluation grids were developed (comprising sub-questions, indicators and data sources to answer review questions)

3. Methodology

3. Methodology

4. Next steps

- Data collection and analysis (ongoing)
- Elaborate findings of the review, including recommendations on enhancing CTCN performance
- Prepare report for consideration by COP 23

Thank you!
