Canada

Canada

# Canada

- Promoting CTCN awareness within Canada (25 Canadian members)
- Network activity to date: 3 contracts and 12 webinars
- Communication and engagement plan with Canadian CTCN members
- Broaden the work of the office
  - Identify and build on internal support
  - More international outreach, and bilateral relationships
  - Make NDE a more valuable resource for members
  - Work with other developed country NDEs
  - Promoting partnerships with the CTCN

# NDE meeting: Bangkok, Thailand

- During SB 48-2 negotiations in September, 2018
- Purpose: Increase the effectiveness of developed-country NDEs
  - Explore/discuss innovative approaches to utilizing the role.
  - Identify/address common barriers
  - Opportunities and solutions
  - Best practices and information sharing
  - Partnerships and collaboration
  - Establish a community

# Meeting Results

- Overviews from Germany, France, Sweden, Japan, Korea and Canada
- Strong attendance and participation
- Strong interest in the activities of other countries
- General interest in improving effectiveness

# Next steps

- Interest in continuing to meet and share information
- Looking at SB-50 in Bonn in June for next meeting
- Focus on specific themes. For example:
  - Strategic priorities
  - Partnering with national and international organizations and agencies
  - Technical Needs Assessments
  - Private- and public sector funding opportunities
