

MOBILIZING SUPPORT FOR CLIMATE TECHNOLOGY

NDC PARTNERSHIP & CAEP

20 August 2019

WHO WE ARE

We are a global coalition of countries and institutions collaborating to drive transformational climate action while enhancing sustainable development

HOW WE WORK

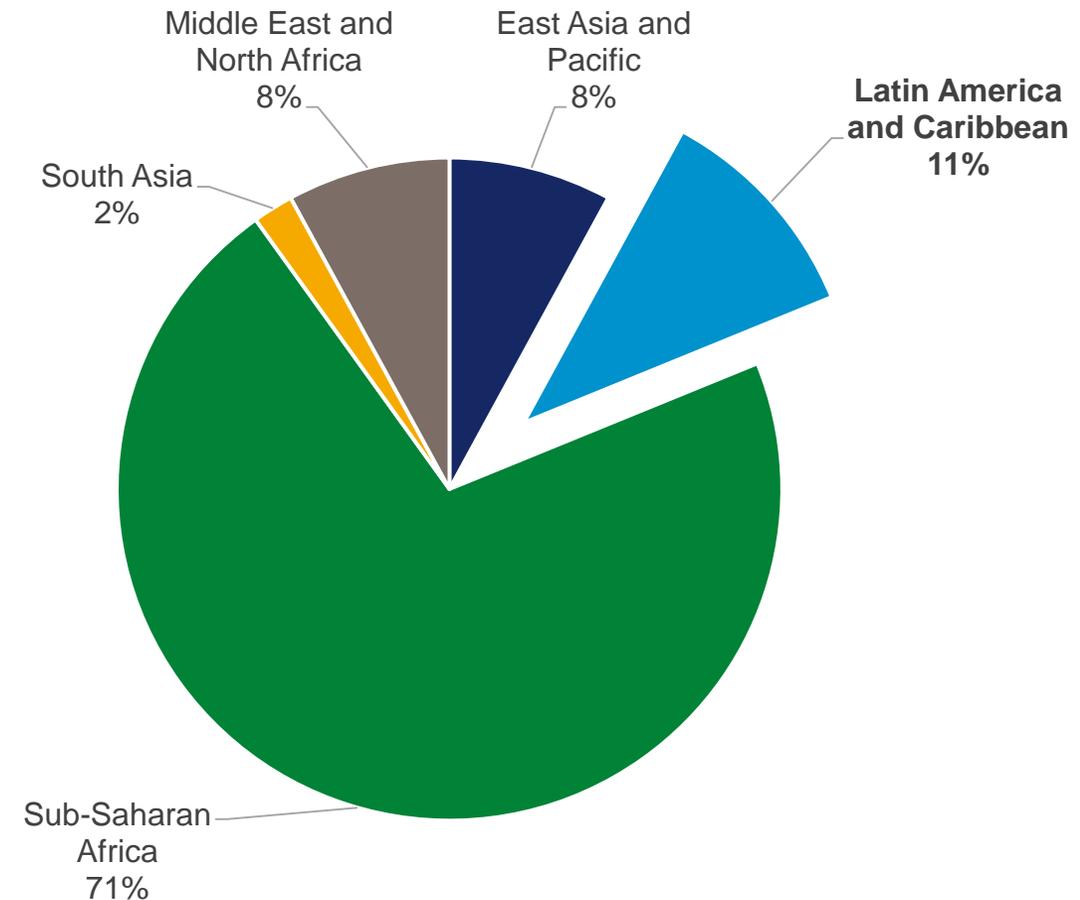

The NDC Partnership in Action

REGIONAL BREAK-DOWN OF TECHNOLOGY REQUESTS

- Globally, as well as in LAC, less than 5% of the requests are related to technology.
- LAC represents 11% of technology-related requests received by the NDC Partnership through Requests for Support Letters and Partnership Plans.
- Out of the 17 countries where the Partnership is engaged in LAC, 3 have requested technology-related support.

Technology Requests per Region

REGIONAL BREAK-DOWN OF TECHNOLOGY REQUESTS

Examples

1. **Saint Lucia:** Introduction of renewable Energy technologies into the operations of the Water and Sewerage Company Inc. (WASCO) to reduce operational cost through PPP.
2. **Dominican Republic:** Regulatory framework for clean energy adoption in tandem with a series of pilots for innovative technologies in waste and tourism, as well as a pilot for private banking financial instruments.
3. **Costa Rica:** With the purpose of updating their public transport system by 2030, the government is requesting technology transfer support for the implementation of an electric train, implementation of an electronic payment software, and a passenger count system.

CLIMATE ACTION ENHANCEMENT PACKAGE (CAEP)

OVERVIEW OF THE CAEP

Targeted, Fast-Track Support to Update and Enhance NDCs

The CAEP gives clear and coherent signals that resources will be made available for developing countries that wish to raise the level of ambition in their updated NDCs.

It aims to assist countries in achieving two overarching objectives:

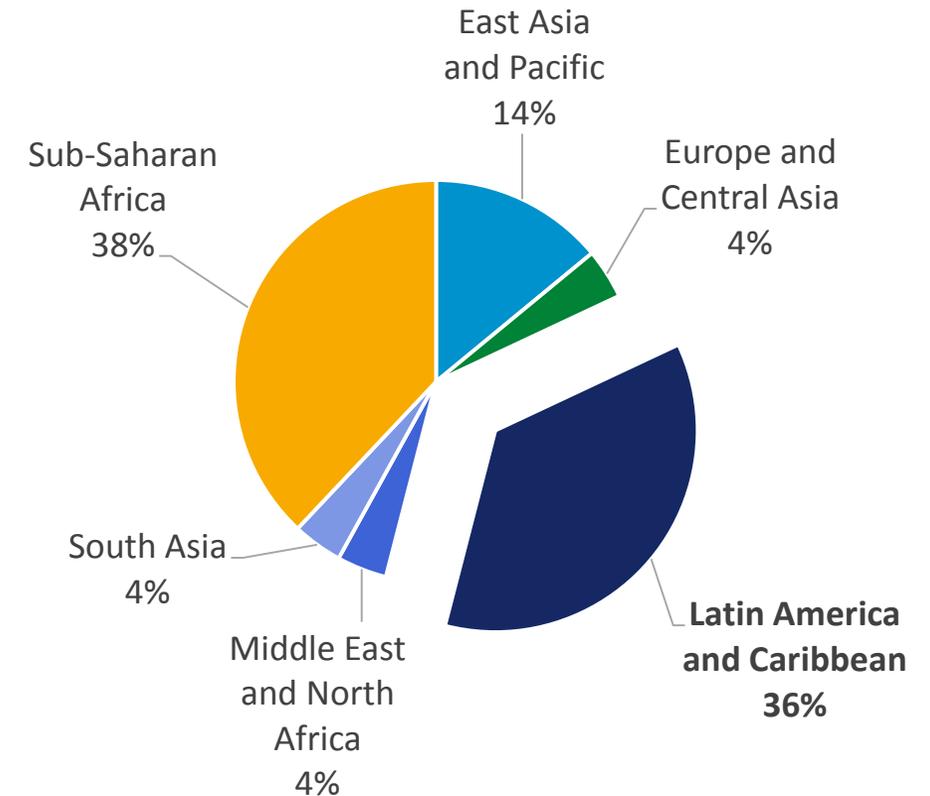

- **OBJECTIVE 1: Enhance NDCs**, including by raising ambition, as part of the Paris Agreement's NDC update process, allowing countries to submit updated NDCs to the UNFCCC by 2020;
- **OBJECTIVE 2: Fast-track implementation of NDCs**, by providing in-country technical expertise and capacity building with a focus on the mobilization of finance for climate action.

OVERVIEW OF CAEP ROUND ONE

50 Countries Submitted CAEP Requests for Support, 18 in LAC

- On average, countries are requesting support for 18 activities
- Most countries are requesting support for both Objectives
- 36% of total requests for support are in LAC
- Key topics include:
 - Climate finance
 - Resilience and adaptation
 - Mitigation
 - Monitoring and MRV
 - Social Drivers

Requests for Support by Region

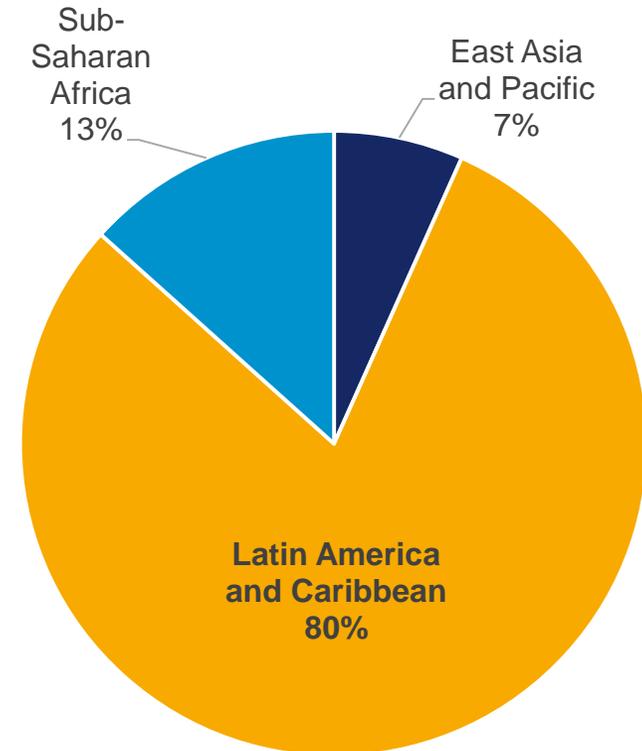

REGIONAL BREAK-DOWN OF TECHNOLOGY REQUESTS

Requests from CAEP

- Globally, as well as in LAC, less than 5% of the requests are related to technology.
- Out of 50 countries that have applied to CAEP, 10 have requested technology-related support.
- In the LAC region, out of the 18 countries that applied to CAEP, 6 have requested technology-related support.
- Over 60% of LAC technology requests are related to finance and the energy transition.

Technology Requests per Region for CAEP

REGIONAL BREAK-DOWN OF TECHNOLOGY REQUESTS

Requests from CAEP

Examples

1. **Panama:** Create the necessary conditions to successfully implement EV technology in public transportation and government fleet with proper planning, scenarios to evaluate policies, and technologies.
2. **Antigua and Barbuda:** Conduct a workshop with technology suppliers to identify inputs under the different mitigation intervention options.
3. **Belize:** Build capacities to undertake financial and technology needs assessments across the country's priority sectors and coordinate with relevant ministries to develop joint project proposals and navigate ministerial priorities.

Thank You
